Peter Reese

Peter joined our staff as a full-time employee in February of this year, after being a long-time customer in our shop. Joining our team right before COVID, created a unique opportunity for him to develop our social media presence. His current title as "Social Media Samurai" has allowed him to use his vast knowledge of the fiber arts while reaching out to our customers virtually.

Peter specializes in weaving, spinning wool into yarn, fair isle knitting, crochet, sewing his own shirts, quilts, color theory, cross-stitching...the list is longer than we can include in this brief email! But suffice it to say he is a man of all traits. Married to Kathy for 18 years, they are puppy parents to two super cute whippets, Stella and Bella. He loves to cook, especially Italian food and enjoys English Breakfast tea when taking a break from all his hobbies.

His many talents and friendly disposition make Peter a natural to handle not only our social media posts, but also to help customers in our shop on a daily basis. Much of the time you will see him juggling an IPOD for our videos and Ipad for pictures, while chatting with our customers.

Peter says about himself that he "loves trying and learning about new things, discovering new places, and being creative." We are blessed to have him as part of the creative staff in our shop and know our customers are enjoying his enthusiasm for all things stitchy, both in the store and on the web.
