

# Lindon City Streetlight Installation Application

Date: \_\_\_\_\_

Name: \_\_\_\_\_ Phone#: \_\_\_\_\_

Address: \_\_\_\_\_

### The Lindon City street lighting policy guidelines.

When requested by this application, and approved by the Lindon City Council after consideration of street lighting impacts and budgetary constraints, Lindon City will facilitate the installation of streetlights in the following locations:

1. Knuckles or sharp bends on public streets that exceed the standard minimum centerline radius.
2. Minor public street intersections.
3. Major public street intersections.
4. End of cul-de-sacs and permanent dead-end public streets.
5. Right or left turn when changing direction which does not meet centerline standards.
6. Public streets longer than 650 feet in length may qualify for a street lights at mid-block (between intersections).

### Lighting Styles:

Local streets in residential areas will have Granville style lights installed. Collector streets and all streets in industrial areas shall have Esplanade style lights. In the Commercial and Research and Business zones, Washington Postlite style lights are installed.

Exact location requested: \_\_\_\_\_

Reason the street light is being requested for this location:

---

---

---

---

To validate this application, please notify adjoining property owners and/or residents within 500 feet of the proposed street light location and have them sign the back of this form if they are in agreement with the proposed light. This is especially important if the proposed location of the street light is not on the applicant's property. The majority of neighbors (over 50%) must approve of the installation of a street light before consideration for approval can be given.
