Diann Loper

Diann Loper discovered her love for free-motion quilting more than a decade ago when she purchased the original Handi Quilter table-top frame for her domestic sewing machine. Not surprising, she quickly became addicted to machine quilting and within months purchased her first longarm quilting machine. It wasn't long until she then moved into computerized quilting.

A former Handi Quilter retailer and technician, Diann believes machine owners should be as knowledgeable as possible about their machines. She enjoys sharing her love of quilting and introducing new skills and tools. She is committed to helping students advance their talents, regardless of their skill level.

Diann is an award-winning free-motion quilter and an expert at computerized quilting. In addition to being a Handi Quilter Educator, Diann also operates her own quilting business in the Dallas area. You can see more of her work at www.happyquilts.com.
