A Note from Sheryll

All,
Please note our new store hours for Saturday, we will start closing at 3:00pm through the winter! As always if you need me to stay late just give me a call and I will be glad to wait! They are saying that this is going to be a really bad winter so I wanted to remind you that I live 17 miles away and it might not always be safe for me to drive out to open the shop, so make sure you call on inclement weather days to make sure we are here!!!

Thank you all SO much for making Customer Appreciation Week a huge success! I wouldn't love my business as much as I do without all of you! So THANK YOU!!!!!!!

I am looking into starting a new BOM in Dec. using wool or cotton (your choice). Check out the first 2 patterns that we will be doing! Please let me know if you would be interested in doing it! Wool can be very expensive so I will need a head count to see if it is feasible! Cost details coming soon!

Check out the new Embroidery BOM that will be starting in Dec. Details coming soon!

Quilting Tips

Instead of using a marking pencil with a quilt stencil, I use a foam paintbrush. I dip it into loose chalk, and dab it over the stencil. It's really quick!

To keep a bobbin with its matching spool of thread, insert a cotton swab through the bobbin and into the top of the spool. Even if they tip over, the bobbin stays in place.

After cutting and pressing binding, roll it onto an empty cardboard tube. The binding will unroll without tangling as you attach it to the quilt.

Floor tiles make the best templates. Press paper pattern onto the adhesive side of a self-stick floor tile. Cut the template out on the line with a scissors or utility knife. These templates are sturdy and can be used with a rotary cutter.

Some sewing machine manufacturers advise against using canned air to blow the lint out of your machine. I use a bicycle hand pump to blow 100% natural air.
