Proven to work

Independent tests prove the superiority of the Perfect 16.

Lifetime clean duct guarantee

Not having to clean your ducts will save you money annually.

10-Year guarantee

Our system lasts.

50X more filtration power

Most air filters have a single flat surface for filtration. **But IQAir's Perfect 16 features a revolutionary "Double V" design that increases filter surface to more than 170 square feet of filter media!** This unique design enables the IQAir Perfect 16 to deliver up to 50 times more filtration power than other ordinary filtration systems. The more collection area the better the filtration and the more air is allowed to pass effortlessly through the system.

Unrivaled performance

We promise and deliver a more than 90-percent reduction of airborne allergens, or your money back. That includes dust, pollen, mold spores, bacteria, viruses and pollution particles. Each Perfect 16 is tested at our factory in Switzerland, but IQAir sets a new industry standard by certifying your Perfect 16's performance after it's been installed in your home.

Your installer will use an IQAir handheld laser particle counter to ensure the system is removing at least 90% of all particles 0.3 microns or larger. And your system's performance is documented in your own Perfect 16 Clean Air Guarantee that your installer signs and dates.

Proven to work

The Perfect 16 is the only system that is rated a perfect MERV 16, the highest rating possible. Intertek/ETL SEMKO submitted the Perfect 16 to rigorous testing based on the toughest industry standards and certified it as MERV (Minimum Efficiency Reporting Value)16. No other system has a higher rating! The MERV system was created by the American Society of Heating, Refrigerating, and Air Conditioning Engineers (ASHRAE) to independently verify how well an air filtration system really cleans the air. This independent test report proves that the IQAir Perfect 16 cleans the air with a minimum efficiency of 95% for particles 0.3 microns and larger, and more than 85% of all ultrafine particles down to 0.003 microns, the smallest particles that exist.

Lifetime clean duct guarantee

IQAir is so confident of the Perfect 16's performance that we guarantee your home's heating, ventilation and cooling ducts will remain free from any significant accumulated dust or dirt for as long as your Perfect 16 remains installed and operational. Not having to clean your ducts will save you money annually. As a Perfect 16 owner you will also have peace of mind knowing the air in your home remains clean and healthy year after year, guaranteed.

10-Year guarantee

The IQAir Perfect 16 is an investment in clean air for many years to come. Each Perfect 16 is manufactured at our factory in Switzerland to demanding standards that are the highest in the industry. And each system is thoroughly tested and its performance verified before it leaves the factory. As a result, IQAir is proud to cover the Perfect 16 in the US and Canada for [a full ten \(10\) years](#) against defects in parts and labor. Filters are consumables and exempt from this warranty.
