2. Public Comment
No Comments

3. Employee of the Month for October
Craig Howe presented Matt Pratt as the first temporary employee to be honored. He has been in the Public Works department this summer and fall. He has been a good influence on all the people
he has worked with, and the department is better for his having worked there.

Mr. Ingles passed out copies of a petition and summarized. He is asking the City to create a committee to study safety measures for neighbors of Holly Oil. Benefits of the study would be that Holly will know what safety measures to take, and both Holly and the City would avoid litigation. The second page of the petition showed a financial report of Holly Oil as of 9/30/2009, which showed that taking such measures would not hurt Holly Oil financially. The third and fourth pages were portions of a memorandum opinion relating to environmental health issues in California, in a court case in which Holly Oil had declined merging with Frontier Oil. Mr. Ingles suggested that the committee include a member of the school district, as well as the City.

Debbie McKean said there was the CARE committee which reviews safety issues regarding Holly Oil. They meet once a month and Mr. Ingles was invited to attend.

The Mayor, Craig Howe and the City Engineer, Ben White, discussed measures that are currently taken with Holly to monitor safety. The Mayor acknowledged the concerns of citizens because of the explosion at the Silver Eagle refinery. Mr. Ingles said his concern is that some guidelines be in place for future councils to use when approving future developments of Holly Oil.

It was decided that the City would consider who should respond to the petition and discuss further steps at the next meeting, when new information would be available from Holly Oil.

Copies of the contract were included in the packets to council members for their review. Ben White recommended the contract, with a total cost schedule of $110,000 for services, be awarded to Forsgren & Associates so they can begin work on the first test well. The test well will be dug on City-owned property adjacent to the water tank located on 400 North. This property is next to a church, and the City is talking with the church about acquiring additional ground for possible future drilling.

MOTION: Ken Romney moved that West Bountiful City enter into a Professional Services Agreement for the new Well, for an amount not to exceed $110,000.

SECOND: Valerie Shaw seconded the Motion.

PASSED: Voting was as follows:

Ken Romney – Aye
Valerie Shaw – Aye
Debbie McKeen – Aye
Cheryl Searle – Aye
James Bruhn – Aye

6. Consider Action to move ahead with the Recycling Program

Tabled.

7. Water Rate Discussion

Heidi Voordekkers distributed information regarding the water rates to Council shortly before the meeting.

In 2008, the City Council worked with Lewis Young Robertson and Burningham (“Lewis Young”) to develop a plan for the next 20 years for maintaining the fast-deteriorating water infrastructure of West Bountiful. As part of the plan, the City implemented a tiered rate and installed meters in order to increase revenue.

The first reading in June was a little under what was anticipated. As of now the City is not collecting enough revenue to cover the bond obligation. Projection included a 2 ½ % increase of new connections per year, and that has not happened. The initial increase schedule adopted was 6% per year increase through 2012, and a 25% increase in 2013 to cover the new well. Since the well is ahead of schedule, City Administration is recommending a one-time 40% increase at the beginning of 2010.

As of now the revenue is short about $10,000 per month. They are currently covering the shortfall by pulling interest from the bond.

Valerie Shaw suggested that Elise Letchenberg of Lewis Young meet with Council again and go over the figures. Cody Deeder, also with Lewis Young, was present. He had worked on other water rate projects but was not familiar with West Bountiful’s project. He stated Elise would be willing to meet and address questions.

It was recommended that Council have a work session on December 3rd at 6:00 pm and then plan a public hearing on December 15th, before making any decisions regarding an increase.

8. Engineer’s Report

Ben White – At the end of the construction season, the City has stayed within budget on all engineering projects. He is studying the possibility of going ahead in the spring with the 400 North project without waiting for UDOT. There is enough in the water bond to cover the project.

9. Police Report

10:25 pm.

Chief Randy Lloyd – summarized the police report included in Council members' packets. An investigation continued last month of a forgery and fraud case out of California until it was taken over by the FBI. They are currently working on a drug/burglary case that covers a large area. Regarding the posting for a new police officer, they have received 150 applications, and at present have narrowed it down to 35.

Heidi Voordecker – looked at the share of sales tax on actual revenues, which was down 9% last month. Gateway revenues were down due to closing of the movie theater. The golf course did well, with revenues down by only 1%. Expenses were down 2.3%.

(no meeting held)

No report.

12. Administrative Report

Craig Howe – UDOT has indicated they are willing to carve out the old clover leaf area by 500 South on the northeast side for potential sale. There is an international company wanting to do some expansion, and he has seen a survey crew on the west side of that area. He hasn’t heard back yet from UDOT on the trails agreement. The city managers met with the South Davis Metro Fire District and reviewed the budget before it was submitted to the Board.

13. Mayor/City Council Reports

Debbie McKeen – newsletter articles need to be turned in no later than Friday. The Christmas program is scheduled for December
7th, which will include a children’s choir and a boutique. The Council will be invited to sing around the firepits. The Youth Council will meet this Thursday at 5:00 pm.

James Bruhn – asked about page 17 of the financial report which showed year-to-date totals of expenditures higher than last year’s totals. Heidi said one month of billing was missing.

Mayor – as a member of the Board, met with the South Davis Metro Fire District to approve the budget. The Recreation Center approved $6,000 total for merit increases for all employees. Memberships continue to increase. Regarding development on the clover-leaf land, he stated the City would not have to share the revenue. He asked if Council wanted to put off the decision regarding recycling until work on the water rates was done. It was decided to include discussion of recycling in the work session on December 3rd. The mayor is hoping to get the CDA resolved.

Ken Romney – the Golf Board is meeting Wednesday at 7:00 pm. He said he thinks it prudent, when the report comes back from Holly Oil, to take an overall look at what to do as a City.

14. Approval of minutes of previous meetings

MOTION: James Bruhn moved to approve minutes of the City Council meeting held October 20, 2009.
