CITY COUNCIL MEETING

THE WEST BOUNTIFUL CITY COUNCIL WILL HOLD A REGULAR MEETING ON
TUESDAY, **APRIL 21, 2015** IN THE CITY OFFICES AT 550 NORTH 800 WEST,
THE WORKSESSION WILL BEGIN AT **6:00 PM**,
THE REGULAR MEETING WILL BEGIN AT APPROXIMATELY **7:30 PM**

6:00 pm WORK SESSION

1. Discuss Budget for FY 2016

7:30 pm REGULAR MEETING

Invocation/Thought –Mark Preece, Pledge of Allegiance – James Bruhn

1. Accept Agenda.
2. Public Comment (two minutes per person, or if a spokesperson has been asked to summarize comments for a group, five minutes will be allowed).
3. Consider Award of Waste Collection Services.
4. Continuation of budget discussions from work session.
5. Award to West Bountiful for Best Tasting Water in the State by Rural Water Assn of Utah (8pm)
6. Mayor/Council Reports.
7. Approve Minutes from the April 7, 2015 City Council Meeting.
8. Executive session pursuant to Utah Code Annotated 52-4-205(c), to discuss pending or reasonably imminent litigation.
9. Adjourn.

Individuals needing special accommodations during the meeting should contact Cathy Brightwell at (801) 292-4486.

This agenda was posted on the State Public Notice website, the City website, emailed to the Mayor and City Council, and sent to the Clipper Publishing Company on April 17, 2015.

MEMORANDUM

TO: Mayor & Council
DATE: April 17, 2015
FROM: Duane Huffman
RE: **Waste Collection Services**

The City's current contract for waste collection services expires July 1, 2015. As the City has used the same contractor since 2007, staff issued a Request for Proposals to ensure that residents service the best value for the fees collected.

The attached tables summarize the results of the proposals received by the City. Along with the information on the tables, staff has the following observations:

- Proposals annotated with an (f) include a fuel surcharge (Republic's 2nd option and Robinson). The cost estimates on the tables do not reflect the addition of these surcharges. Based on the high fluctuations in fuel prices as well as the competitive bids without fuel surcharges, staff highly recommends selecting a proposal without a fuel surcharge.
- The Ace proposal annotated with an (b) indicates that the prospective contractor's prices reflect a proposal with a smaller performance bond. Staff does not have strong feelings either way on this issue.
- Staff checked several references for both Ace and Republic, and the references were uniformly positive, both in each contractor's performance and in their ability to transition to a new city.
- Staff has experienced residents' frustration with Waste Management's customer service call center based out of state – there is often confusion at the call center as to whether Waste Management services West Bountiful.
- Waste Management does have a positive working relationship with our public works department.

1 Minutes of the West Bountiful City Council meeting held on **Tuesday, April 7, 2015** at West
2 Bountiful City Hall, 550 N 800 West, Davis County, Utah.

3
4 Those in attendance:

5
6 **MEMBERS:** Mayor Kenneth Romney, Council members James Ahlstrom, James Bruhn,
7 Kelly Enquist, Debbie McKean, Mark Preece

8
9 **STAFF:** Steve Doxey (City Attorney), Chief Todd Hixson, Ben White (Engineer), Paul
10 Holden (Golf Director), Steve Maughan (Public Works Director), Cathy Brightwell (City
11 Recorder/ Secretary)

12
13 **EXCUSED:** Duane Huffman (City Administrator),

14
15 **VISITORS:** Alan Malan, Lucile & Eric Eastman, Tiffany Allen, Dave Asay and Nathan
16 Peterson (UDOT)

17
18
19 Mayor Romney called the regular meeting to order at 7:31 pm. Mark Preece gave an Invocation,
20 and the Pledge of Allegiance was led by James Ahlstrom.

21
22 **1. Accept Agenda**

23
24 Mayor Romney explained that the UDOT presenters had arrived early due to a change in their
25 schedule and suggested they be moved up on the agenda.

26
27 **MOTION:** *James Ahlstrom moved to approve the agenda moving item #8 up to follow*
28 *item #3. James Bruhn seconded the Motion which PASSED by unanimous*
29 *vote of all members present.*

30
31 **2. Public Comment**

32
33 Lucile Eastman, representing the Arts Council, commented that they are working hard to
34 prepare for the Independence Day celebration. Because of the great job they did a couple of years
35 ago, their enthusiasm, and general contribution to the event, the Youth Council was asked to help out
36 again this year. She said their response was discouraging. They told the Arts Council that they are a
37 voting body enacted by city ordinance, similar to the City Council, and members discuss and vote on
38 projects they want to participate in. They also explained that their terms run concurrently with the
39 school year, leaving summer activities difficult to cover. While a few members indicated they
40 would be happy to help out, the Youth Council told the Arts Council that they probably would not be
41 able to take responsibility for specific projects.

42 Mrs. Eastman noted that the Arts Council was asked to coordinate the Independence Day
43 events; they did not volunteer. She said they are all busy but they love their community and love
44 serving this community. She said they need help with the Park activities following the parade, and
45 thought this was a good way for the youth of the city to learn to serve. She also requested the city
46 council help with events, and contact her if they know anyone who might be willing to help out.

47 The activities run from about 11:30 am to 2:00 pm and each venue, for example, bounce
48 house, fish pond, pie-eating, etc., needs a volunteer to man the event and keep it organized.

49 Mayor Romney assured her that they will make sure there are enough people to help out.
50 Council member McKean added that she is frustrated with youth in general – not just youth council
51 not wanting to get involved, and she believes it is the responsibility of the city council to help our
52 youth learn how to serve their community.

53 Tiffany Allen, also a member of the Arts Council, said she is here representing herself. She
54 explained that she was the one that met with the Youth Council and is concerned about the things the
55 youth are being taught. She said she wants the community at large to realize we all have a
56 responsibility, because we live here and are citizens here, to take care of each other when these
57 opportunities come around. We have the “right” to be responsible. She noted that most volunteers
58 within the community fall under the 80/20 rule and she would like to see if we can change it.

59
60

61 **3. Public Hearing – To Receive Input on Proposal to Increase Compensation for Elected**
62 **and Statutory Officers (City Council and City Recorder).**

63 **MOTION:** *Debbie McKean moved to open the public hearing. James Bruhn seconded*
64 *the Motion which PASSED by unanimous vote of all members present.*

65

66 Eric Eastman, a previous city council member, asked how long it had been since the fees
67 were raised. Mayor Romney responded that it had been a very long time, and we were not able to
68 find any records to tell us exactly how long it had been. Mr. Eastman said he supports the increase
69 whole heartedly.

70 Alan Malan commented that he does not have a problem with the increase but does not like
71 the way the law is written. He believes it is a conflict of interest to raise your own salary.

72

73 **MOTION:** *James Bruhn moved to close the public hearing. Debbie McKean seconded*
74 *the Motion which PASSED by unanimous vote of all members present.*

75

76

77 **4. Consider Ordinance 372-15, An Ordinance Amending the Compensation of City**
78 **Council Members and City Recorder, and Reaffirming the Compensation for Mayor**
79 **and City Treasurer.**

80 There was discussion about when the changes would take effect and it was determined they
81 would become effective immediately upon signing and posting, which will be tomorrow, April 8.
82 There was also discussion about changing the timing of city council paychecks. Instead of getting
83 paid quarterly as they have been, council members will begin receiving monthly paychecks, per state
84 law.

85

86 **MOTION:** *James Ahlstrom moved to approve Ordinance 372-15. Mark Preece*
87 *seconded the Motion which PASSED.*

88

89

90

The vote was recorded as follows:
James Ahlstrom – Aye

91 James Bruhn – Aye
92 Kelly Enquist – Aye
93 Debbie McKean– Aye
94 Mark Preece – Aye
95

96 **5. Consider Request From David Smith To Have Amplified Music at City Park On April**
97 **18, 2015.**

98 **MOTION:** *Debbie McKean moved to approve the request from David Smith to have*
99 *amplified music at City Park on April 18, 2015. James Bruhn seconded the*
100 *Motion which PASSED by unanimous vote of all members present.*
101

102 **6. Consider Ordinance 371-15, An Ordinance Adopting Modifications to Section**
103 **17.56.030, Allowing Changes to Non-Complying Structures.**

104 Ben White explained that at its last meeting, the City Council asked staff to make
105 modifications to the draft recommended by the planning commission. He said when making those
106 changes, Mr. Doxey realized the language was still confusing and made additional changes to clarify
107 section B.3.
108

109 **MOTION:** *James Bruhn moved to approve Ordinance 371-15 with the changes*
110 *described by Steve Doxey. Debbie McKean seconded the Motion which*
111 *PASSED.*
112

113 The vote was recorded as follows:
114 James Ahlstrom – Aye
115 James Bruhn – Aye
116 Kelly Enquist – Aye
117 Debbie McKean– Aye
118 Mark Preece – Aye
119

120 **7. Consider Approval of Cooperative Agreement for Transportation Alternatives**
121 **Program (TAP) Funding with Utah Department of Transportation.**

122 Ben White explained that the City made an application to UDOT for \$215,000 in matching
123 funding assistance to construct bike lanes along Pages Lane from 400 East in Centerville to 800
124 West. He noted that UDOT will require the project begin at 400 East in Centerville moving west.
125 We will have to stripe Centerville roads as part of our project. The original intent was to construct
126 this project during the 2015 construction season, but due to the delays with the 400 North overpass
127 construction, this project has been postponed until next year.

128 The UDOT funding agreement is for monies from the Transportation Alternatives Program
129 (TAP) for UDOT to reimbursement the City \$150,000 once the project is complete, so long as the
130 City expends at least \$300,000 toward the improvements. Legal counsel wants to clean up language
131 in paragraph 6.
132

174 *McKean seconded the Motion which PASSED by unanimous vote of all*
175 *members present.*
176

177 **10. Consider Approval of Purchase for Café Hood System Replacement.**
178

179 The City learned during the 2014 golf season that the current hood system at Lakeside needs
180 to be updated to better conform to fire and safety codes. In addition, a better functioning hood
181 system will help protect merchandise in the pro shop from odors from the café. The City received 3
182 full quotes and few partial quotes for a new system. Restaurant & Store Equipment Co. (RESCO)
183 provided the lowest complete bid and included the most complete service, and staff understands
184 them to be a reputable company with years of experience in this field.

185 Pursuant to the City's procurement policy requiring purchases greater than \$10k to be
186 approved by the City Council, staff recommends \$24,694.40 be approved for the purchase and
187 installation of a new hood system for the café at Lakeside Golf Course.
188

189 **MOTION:** *James Ahlstrom moved to approve the purchase and installation of a new*
190 *hood system for \$24,694.40. Debbie McKean seconded the Motion which*
191 *PASSED by unanimous vote of all members present.*
192

193 **11. Discuss and Consider of Bids for Golf Course/Restroom Project.**
194

195 Ben White explained that five bids were received earlier in the day for the Golf Course
196 Restroom project. The restroom design includes a masonry structure, asphalt shingles, a water
197 fountain, flush valve toilets, electric hand dryer like the ones at the park, and minimal heat so the
198 restrooms can be open for a longer season without the risk of damage from frozen fixtures. Bids
199 were broken out to show a base bid and four additives including 1) partitions, 2) mop sink, 3) CMU
200 privacy walls, and 4) hip roof. Ben noted that the bids came in higher than staff expected but are
201 very consistent and competitive. In response to questions, Ben estimated the cost would increase
202 approximately \$30k if access is provided to the Prospector Trail.

203 Mayor Romney asked council members to provide their thoughts about which additives, if
204 any, to include and their preference about adding Trail access to the restrooms. He said his
205 recommendation is to go with the base bid. The mop sink would be nice and the overhang from the
206 hip roof will protect the drinking fountain and soda machine and provide cover in inclement weather,
207 but they do not affect the quality.

208 Debbie McKean would prefer to wait to make a decision until after we get the bids back on
209 the Park equipment to make sure there is enough money, but if we go forward now she supports
210 building the restroom but is strongly opposed to connecting it to the Trail. She is concerned about
211 liability when people are "invited" onto the golf course.

212 James Ahlstrom recommends both the hip roof and the mop sink. He supports access to the
213 Trail and gave examples of other courses that permit access from surrounding trails and believes it is

214 a common practice. A gate from the Trail will be closed at night and the restrooms will be locked
215 providing additional protection.

216 Mark Preece supports using the restroom for both the Trail and the golf course; it provides
217 more bang for our buck. Regarding the bids, he prefers using the base bid.

218 James Bruhn definitely wants to connect the restroom to the trail when spending this much
219 money. He believes it needs to be used for a dual purpose. He said he is not sure the roof is worth
220 the price. He asked Paul Holden his opinion and Paul said the hip roof is preferable.

221 Kelly Enquist said that he does not feel the city receives enough value for the cost of the
222 restrooms. He is not sure there is a great need for a restroom in that location as there are fewer
223 walkers on south end of trail.

224 There was discussion about funding options including Park Impact fees, and/or RAP tax.
225 RAP can be used whether or not it is connected to the Trail, and Impact fees only if it is part of the
226 Trail. Both funding sources can be used for Park playground equipment, another upcoming project.

227 **MOTION:** *James Ahlstrom moved to approve the lowest responsible bidder for the*
228 *Restroom building project to include a hip roof and mop sink, provide*
229 *access to the Prospector Rail trail, and fund the project from Park Impact*
230 *fees as much as possible, minimizing the need to use RAP tax. James*
231 *Bruhn seconded the Motion which PASSED by a vote of 3-2.*
232

233 The vote was recorded as follows:

234 James Ahlstrom – Aye

235 James Bruhn – Aye

236 Kelly Enquist – Nay

237 Debbie McKean – Nay

238 Mark Preece – Aye
239

240 **12. Discuss Proposed Stringham Farm Subdivision.** 241

242 Ben White summarized the activity associated with the Stringham Farm subdivision since it
243 was filed. The Stringham Farm subdivision is a nine lot subdivision located in the R-1-10 zone that
244 includes one lot with an existing house that fronts on to 1000 North Street, six lots on the 845 North
245 and 750 West Street extensions, and two flag lots. The Planning Commission recommended
246 approval in its March 24th meeting. A Conditional Use Permit was also approved for the flag lots
247 during the March 24th meeting. Ben provided a memo with the seven conditions recommended by
248 Planning Commission for final plat approval. He noted that the Subdivision is up for discussion
249 rather than approval because the appeal period for the Conditional Use Permit is still running.

250 Mayor Romney asked Wendell Wild how he feels about the conditions. Mr. Wild responded
251 that he felt the two flag lots would be beneficial and enhance the unique aspects of this subdivision,
252 and he is very disappointed with the decisions made by the planning commission. He said he is not
253 happy with several of the conditions and the process. Mr. Wild added that if he had not already
254 expended the funds he had, they would have gone back to the cul-de-sac proposal. Mayor Romney
255 explained that because the city council is the appeal authority for conditional use permits, they
256 purposely stayed out of the process while the planning commission was working on it. Council

257 member Ahlstrom stated that he was not involved in any discussions with planning commission; his
258 only discussion about the subdivision was with Mr. Wild when Mr. Wild called him shortly after
259 making the initial filing.

260 There was discussion about the easement for a path to the Church property to the west of the
261 subdivision. Mr. Wild is opposed to it. Council member Ahlstrom said he wants the path regardless
262 of what the Church says today. He does not like the one year sunset provision that was
263 recommended by the Planning Commission, and believes it should not be considered as a negotiable
264 item. The mid-block path requirement is an ordinance provision that City Council has the authority
265 to require. Questions about when it should go in, who will build it, and who will maintain it were
266 discussed. Several council members want to see the path go in now. The idea is to break up the
267 block and they believe it will be an advantage to the City to have it.

268 Mr. Wild also commented on condition #5 in the Conditional Use Permit. He explained that
269 Mark Green, with M.C. Green Construction, wrote a letter stating he felt six inches of concrete
270 would be appropriate for the flag staff driveway, but the Planning Commission still required eight
271 inches. This requirement included a provision for a licensed geotechnical engineer to design a
272 pavement section which would meet the load requirements.

273 Steve Doxey suggested that he and Ben White meet with the Developer to discuss the status
274 of the application and the developer's options.

275

276 **13. Planning Commission/Engineering Report**

277

278 Ben White said the Planning Commission report was covered above as part of the Stringham
279 Farm subdivision discussion.

280 The 725 West project is well underway. The main water line is complete, laterals will be
281 built soon, then the excavation for the road construction. Steve Maughan added that residents have
282 been happy and all comments positive. The project should be complete in about 4 weeks.

283 We have been meeting with UDOT regarding I-15 landscaping and entry signs. The City
284 Council previously decided not to improve fences across I-15 on 400 North, so we will apply the
285 extra money to the 500 South beautification. We can let UDOT do it, or we can take the cash and
286 probably do it for less working with Bountiful on our own plan. If we decide to do it that way, the
287 landscaping will not be constructed as part of the I-15 project, but by us afterward. We have about
288 \$30k from 400 North, Bountiful will add about \$30k and there is about \$20,000 available from 500
289 South for a total of about \$80k to go toward 500 South landscaping and entry signage.

290 There were questions about the Park playground equipment RFP and why we included a
291 dollar amount rather than letting the vendors respond with prices. Council member McKean said it
292 seems odd and not the way we usually do it. Ben responded that in this situation it is probably better
293 to ask for their best ideas, based on the footprint size and target group, and let them tell us what
294 would work best. If we do not include a dollar amount, vendors will not know what size of play
295 equipment we are interested in. Each respondent will give us 3 options for surface materials; it will
296 at least give us a starting point. Goal is to have proposals back by early May.

297

298 **14. Administrative/Finance Report**

299

300 There will not be a budget meeting next week.

301

302 **15. Mayor/Council Reports**

303
304 James Ahlstrom – no report.
305
306 Mark Preece reported that at the last Youth Council meeting, they talked about the Arts
307 Council request for help on the 4th of July. He said the Arts Council representative told the kids
308 they have to help. YCC explained to her that they have the right to vote not to participate. They do
309 a lot for the City especially at Christmas and Easter. He said some of the kids want to help and will
310 be at the Park although not all of them can make it. The YCC terms run concurrent with the school
311 year so many of the kids work or are on vacation, etc. He said he would like to see them help out
312 too but they should not be told what they have to do.
313 The Easter Egg scramble went well and everyone liked the Easter bunny. They thought
314 having it at the Park was great; they had lots of room for all the kids. He added that the “I heart
315 WB” shirts are in and the kids will be selling them as a fundraiser.
316 Council member Preece added that the Sewer district has decided to go ahead with the
317 feasibility study for methane recovery.
318
319 James Bruhn reported that Wasatch Integrated bids are coming in higher than expected for
320 the tommel screen.
321 He added that there was a meeting with the school district and UDOT earlier today and they
322 were told UDOT had agreed to install a 6 foot wide sidewalk all the way across the overpass
323 including over railroad tracks. He said they are asking for increased police presence around the
324 school when 400 North closes to protect kids when cars turn around at the closure.
325
326 Debbie McKean reported that articles are due on April 15 for the next newsletter. She added
327 that Mosquito Abatement may have to downsize projects because bids are coming in so high. There
328 was discussion about mosquito spraying and how helpful it was at the golf course last year.
329 Independence Day activities are beginning; the first parade application came in today. She
330 said they are considering including hot rod cars and tractors at the Park.
331 Mrs. McKean added that she appreciates the Youth City Council and all they do. The attitude
332 with the Arts Council comes from not feeling appreciated. They are a very dedicated group that
333 loves their community and puts their heart into what they do. It would help a lot to have Council
334 attend their concerts.
335
336 Kelly Enquist asked what is happening with Alice acres. After being dormant for a long time,
337 some dirt is now being moved. Ben White said they are putting in power, and public works served
338 them notice that they need to get the dirt moved. He asked about power poles being set in Olsen
339 Ranches. He said he has never seen this before in a subdivision. Ben explained that Rocky
340 Mountain Power will not cross the gas line so they have to use poles.
341 Mr. Enquist commented that there is a lot of dumping at the 400 North underpass and
342 suggested signs be placed to remind the public not to do it. Steve Maughan said a lot of the waste
343 comes from the overpass above. He added that his crew cleans it up a couple times a year.
344
345 Mayor Romney commented that he appreciate what everyone does, and thanked staff for
346 their hard work. He added that he is pleased with the work being done on 725 West and thinks it
347 looks good.
