FENCE & SLAB PLACEMENT VERIFICATION

FENCE CONCRETE FLAT WORK/SLAB

Fences and concrete flat work do not require a Building Permit. However, to prevent costly errors in the location of fences and concrete, the City requires that the placement of all fences and concrete flat work be approved by the building inspector prior to construction. No fee is required.

Name

Street Address

Phone

1. Identify and describe here the structure to be constructed.

2. Please provide a sketch of the project including measurements from property lines.
