FEATHER FRENZY

Workshop Materials List

- These are practice pieces, not projects, so please bring several muslin or light to medium colored fabric sandwiches (2 pieces of fabric with batting in between) approximately 22" square. Because these are small, you may either spray baste them or bring safety pins with you. If you are a fairly slow stitcher, bring 2 of these; if you're fast (you know who you are!), bring more.
- Thread of choice, either contrasting or matching
- Water soluble marker
- Small scissors or thread snips
- Sewing machine needles appropriate for your batting and thread. For cotton batting, Jeans/Denim needles are recommended; for wool, bamboo and blends, I generally use Microtex Sharp. For 50 wt thread and finer, an 80/12 needle in either of the above styles should work well; for thicker threads or metallics, a 90/14 would be better.
