**From Watercolor to Quilt**

**Class 405**  
Friday, Saturday, Sunday  
October 3, 4, 5  
9:30am - 4:30pm  
\$150 + tax

Abstract watercolor paintings will be created the first day using 10 different painting techniques that will leave the student with several paintings to work from. Techniques include: transparent layered shapes, tape resists, rubber cement drawing resist, washes, glazing, dropping in of colors, surface treatments using soap bubbles, rubbing alcohol and grids, etc.

One painting will be chosen and cropped to find the most dynamic part. This will be drawn to make templates, then enlarged, and translated with fabrics into a quilt using either my turned edge technique or the students preferred technique. When the quilt is done it will look like a watercolor painting.

No painting experience is needed.

Table Runner**

Class 406  
Friday, October 24  
9:30 am—4:30 pm  
\$79 + tax  
(includes fabric kit and ruler)

This amazingly easy Table Runner is made with one simple block.

It is designed to be made as a SCRAP project  
(Table Runner or it can be expanded to a Quilt).

This project is made with the CREATIVE CURVES 3" RULER,  
however, any of the circular curved Rulers (4", 3", 2" & 1 1/2") could have been  
used.

Be aware - these are ONE WAY cuts, cut all *curved* pieces *FACE-UP!*

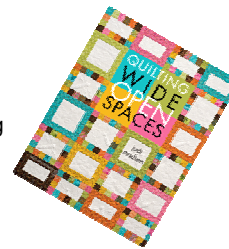

Vickie Haskins became an employee of Ann Silva's Sewing Center in 2007 to teach Mastery Classes. A week after she started Virginia Keys the Handi Quilter instructor decided to move to Montana. Vickie was "promoted" to Handi Quilter instructor instantly. She expanded the long-arm classes from just the "How to Use This New Machine" to cover a wide variety of topics. She boasts she can teach anyone to draw feathers and "if you can draw it, you can sew it."

In February, the New Mexico Museum of Natural History opened a new permanent exhibit, *The Hall of Stars*, featuring work done by Vickie on her Handi Quilter using the *Art and Stitch* software. It is an interactive exhibit displaying the night sky as seen in New Mexico. This exhibit won a national award for interactive exhibits in museums in May.

In July, Vickie became the twenty-first Certified *Art and Stitch* instructor in the world. This software is for computerized long-arm and embroidery machines. Vickie teaches Handi Quilter (long-arm quilting), Pro-Stitcher (computerized long-arm) and *Art and Stitch* classes at our store. In addition, she creates digital quilting designs and does custom quilting.
