ANN & STEVE'S CHAT

As I write this, we have just celebrated our 33rd anniversary. As the cliché states – where has the time gone? When I think about this business, I reflect upon what our product line was in July 1980. We had 2 Bernina 830 and 2 Bernina 801 sewing machines (one each to show, one to go). It sure was easy to know how to show them. Today – the product line is so vast, it's hard for any one of us to know all the features and benefits of each machine. There are sewing machines that sew, embroidery machines that may sew and embroider, and some that just embroider. There are sergers, long arm machines, vacuum cleaners, cabinets. Brands include Bernina, Babylock, Handi Quilter, Miele, Koala, Horn. How is one to know it all? Well, we try hard to keep up to date and informed. We attend Bernina University, Babylock Tech, Handi Quilter training at Houston Quilt Market, as well as new product training given twice a year by the various companies.

So what will be new this fall?

1. The flagship Bernina 880 will allow you to create original stitches with the new stitch designer. Simply draw your ideas directly on the screen. The Bernina 880 converts the design with a click into a stitch pattern.
2. The Bernina 560 will be an addition to the 5 series of machines with the opportunity to order just the machine you're ready for – the embroidery module and BSR are optional accessories.
3. V7 Designer software places a host of powerful design tools at your fingertips that make it absolute child's play to turn your creative ideas into reality. Bernina offers the great V6 software at an incredible price now, with the opportunity to upgrade to V7 for a very attractive price. You will come out ahead with this offer.
4. The bernette Chicago 7 is a computerized combo machine that can both sew and embroider – a reasonably priced machine for new and experienced sewers.
5. The Bernina L460 and L450 are two new sergers. The L460 offers a knee lift (free hand system) to raise and lower the presser foot, and even a needle stop up/down feature that can be changed with a back-kick of the foot control.
The Bernina L220 is a serger that offers the ideal addition to your machine family with its cover and chain stitch only.

I've been telling you about the products Steve and I saw at B.U. Steve, Tina, Margaret and Sharon will be at Babylock Tech the last week in August. They will be ready to share and show many more new products at our Open House, September 7. Hope to see you then.

Until next time, happy sewing.

Painted, Stitched Canvas Katie Pasquini Masopust

This class combines painting and quilting. Using Acrylic paint the students will create layers of imagery onto thin canvas, applying fused fabrics and many layers of thin fluid acrylic paint.

A color scheme is chosen and two to three canvases are painted within that color scheme. Then these canvases are cut apart and combined to create a complex composition.

The reconstructed canvas is then layered with batting and backing and stitched.

These stitched pieces can then be stretched on a frame ready to hang or inserted into a quilt of the same design to create a many textured creation.

All skill levels (no previous painting skills needed)

As a result, their education is often irreparably impacted, and their income is halted regularly. Lucy will host a volunteer sewing drive for this wonderful program. She will be teaching the construction of drawstring bags, flannel liners, and the shields that hold the liners.

Donations will also be collected of the following:

1/2 yd. scraps of cotton fabric for the shields and drawstring bags.

Flannel for liners and PUL.

Please join us in supporting this organization. www.daysforgirls.org
