THE CODE IS ORGANIZED BY SUBJECT MATTER UNDER AN EXPANDABLE THREE-FACTOR HYPHENATED NUMBERING SYSTEM WHICH IS DESIGNED TO FACILITATE SUPPLEMENTATION WITHOUT DISTURBING THE NUMBERING OF EXISTING PROVISIONS. EACH SECTION NUMBER DESIGNATES, IN SEQUENCE, THE NUMBERS OF THE TITLE, CHAPTER, AND SECTION. IN MOST INSTANCES, SECTIONS APPEAR AS THREE NUMBERS SEPARATED BY HYPHENS, SUCH AS 4-3-13; HOWEVER, SOME SECTIONS ARE FOLLOWED BY DECIMALS, SUCH AS 9-2-10.5, INDICATING THAT SECTIONS HAVE BEEN FURTHER DIVIDED.

IN PARENTHESES FOLLOWING CERTAIN SECTIONS IS A LEGISLATIVE HISTORY IDENTIFYING THE SPECIFIC SOURCES FOR THE PROVISIONS OF THAT SECTION. ALL SECTIONS AMENDED COMMENCING WITH ORDINANCE 1994-1 INCLUDE THIS LEGISLATIVE HISTORY.

A SUBJECT-MATTER INDEX, WITH COMPLETE CROSS-REFERENCING, LOCATES SPECIFIC CODE PROVISIONS BY INDIVIDUAL SECTION NUMBERS.

THE SUPPLEMENT “DIRECTIONS” PAGE, WHICH SHOULD BE RETAINED IN THE FRONT OF THE CODE, INDICATES THE LAST ORDNANCE (AND PASSAGE DATE THEREOF) INCLUDED WITH EACH SUPPLEMENT.

(ii) denying the request;

(iii) notifying the requester that it does not maintain the record and providing, if known, the name and address of where the record can be found; or

2-11-7.4 The following circumstances constitute "extraordinary circumstances" that allow the city to delay approval or denial by an additional period of time as specified in Subsection 7.5 if the city determines that due to the extraordinary circumstances it cannot respond within the time limits provided in Subsection 7.2:

h. segregating information that the requester is entitled to inspect from information that the requester is not entitled to inspect requires computer programming.

2-11-7.5 If one of the extraordinary circumstances listed in Subsection 4 precludes approval or denial within the time specified in Subsection 2, the following time limits apply to the extraordinary circumstances:

a. for claims under Subsection 4.a., the governmental entity currently in possession of the record shall return the record to the originating entity within five business days of the request for the return unless returning the record would impair the holder's work.

c. for claims under Subsection 7.4.c., 7.4.d., and 7.4.e., the city shall:

   (ii) provide the requester with an estimate of the amount of time it will take to finish the work required to respond to the request; and
(iii) complete the work and disclose those records that requester is entitled to inspect as soon as reasonably possible;

d. for delays under Subsection 7.4.f., the city shall either approve or deny the request within five business days after the response time specified for the original request has expired;

e. for delays under Subsection 7.4.g., the city shall fulfill the request within 15 business days from the date of the original request; or

f. for delays under Subsection 7.4.h., the city shall complete its programming and disclose the requested records as soon as reasonably possible.

2-11-7.6 If the city fails to provide the requested records or issue a denial within the specified time period, that failure is considered the equivalent of a determination denying access to the records.

2-11-8.1 If the city denies the request in whole or part, it shall provide a notice of denial to the requester either in person or by sending the notice to requester's address.

b. citations to the provisions of this Ordinance, another state statute, federal statute, court rule or order or federal regulation that exempt the record or portions of the record from disclosure, provided that the citations do not disclose private, controlled, or protected information;

28. records that would reveal negotiations regarding assistance or incentives offered by or requested from the city for the purpose of encouraging a person to expand or locate a business in Utah, but only if disclosure would result in actual economic harm to the person or place the city at a competitive disadvantage, but this section may not be used to restrict access to a record evidencing a final contract; and

29. materials to which access must be limited for the purpose of securing or maintaining the city's proprietary protection of intellectual property rights including patents, copyrights, and trade secrets.

b. designate those record series as provided by this Ordinance;

c. report the designation of its record services to the state archives.

2-11-13.3 The city may redesignate a record series or reclassify a record or record series, or information within a record at any time.

2-11-14 RECORDS RETENTION

This section shall provide standards for the management and retention of the records of the city comparable to UCA 63-2-903. The initial retention schedule shall be as set forth in Exhibit “B” hereto.

“Schedule B - Retention Schedule” shall read as follows:

2-11-15 SEGREGATION OF RECORDS

Notwithstanding any other provision in this Ordinance, if the city receives a request for access to a record that contains both information that the requester is entitled to inspect and information that the requester is not entitled to inspect under this Ordinance, and, if the information the requester is entitled to inspect is intelligible, the city:

1. shall allow access to information in the record that the requester is entitled to inspect under this Ordinance; and

2. may deny access to information in the record if the information is exempt from disclosure to the requester, issuing a notice of denial.
2-11-16 APPEALS

2-11-16.1

a. Any person aggrieved by the city’s access determination under this Ordinance, including a person not a party to the city’s proceeding, may appeal the determination to the City Manager and City Council by filing a notice of appeal.

b. If the city claims extraordinary circumstances and specifies the date when the records will be available and, if the requester believes the
extraordinary circumstances do not exist or that the
time specified is unreasonable, the requester may
appeal the city's claim of extraordinary
circumstances or date for compliance within 30 days
after notification of a claim of
extraordinary circumstances by the city, despite the
lack of a "determination" or its equivalent.

2-11-16.2 a. If the appeal involves a record that is the subject of
a business confidentiality claim under Section
63-2-308 of the Utah Code, the city recorder shall:

(i) send notice of the requester's appeal to the
business confidentiality claimant within three
business days after receiving notice, except that if
notice under this section must be given to more than
35 persons, it shall be given as soon as reasonably
possible;

(ii) send notice of the business confidentiality
claim and the schedule for the City Recorder's
determination to the requester within three business
days after receiving notice of the requester's
appeal.

b. The claimant shall have seven business days after notice
is sent by the City Recorder to submit further support
for the claim of business confidentiality.

2-11-16.3 a. The City Manager shall make a determination on any appeal
within the following period of time:

(i) within five business days after the city
manager's receipt of the notice of appeal; or

(ii) within twelve business days after the city sends
the requester's notice of appeal to a person who
submitted a claim of business confidentiality.

b. If the City Manager fails to make a determination
within the time specified in Subsection (3)(a), the
failure shall be considered the equivalent of an order
denying the appeal.

c. The provisions of this section notwithstanding, the
parties participating in the proceeding may, by
agreement, extend the time periods specified in this
section.

2-11-16.4 The City Manager may, upon consideration and weighing of
the various interests and public policies pertinent to the
classification and disclosure or nondisclosure, order the
disclosure of information properly
classified as private under Section 10.2 or protected under Section 12 if the interests favoring access outweigh the interest favoring restriction of access.

2-11-16.5 The city shall send written notice of the determination of the city manager to all participants. If the city manager affirms the denial in whole or in part, the denial shall include a statement that the requester has the right to appeal the denial to the city council, and the time limits for filing an appeal.

2-11-16.6 The duties of the city manager under this section may be delegated.

2-11-16.7 The notice of appeal to the city council must be filed with the city recorder no later than 30 days after the city manager has denied the appeal or fails to make a determination within the time specified in Subsection 16.3(a).

2-11-16.8 The notice of appeal shall contain the following information:

a. the petitioner's name, mailing address, and daytime telephone number; and

b. the relief sought.

2-11-16.9 The petitioner may file a short statement of facts, reasons, and legal authority in support of the appeal.

2-11-16.10 No later than three days after receiving a notice of appeal, the recorder shall:

a. schedule a hearing for the city council to discuss the appeal which shall be held no sooner than 15 days and no later than 30 days from the date of the filing of the appeal;

b. At the hearing, the city council shall allow the parties to testify, present evidence, and comment on the issues. The city council may allow other interested persons to comment on the issues.

c. No later than three business days after the hearing, the city council shall issue a signed order either granting the petition in whole or in part or upholding the determination of the city in whole or in part.

d. The order of the city shall include:

(i) a statement of reasons for the decision, including citations to this Ordinance or federal
regulation that governs disclosure of the record, provided that the citations do not disclose private, controlled, or protected information;

(ii) a description of the record or portions of the record to which access was ordered or denied, provided that the description does not disclose private, controlled, or protected information;

(iii) a statement that any party to the appeal may appeal the city's decision to district court; and

(iv) a brief summary of the appeal, and a notice that in order to protect its rights on appeal, the party may wish to seek advice from an attorney.

2-11-16.11 A person aggrieved by the city's classification or designation determination under this chapter, but who is not requesting access to the records, may appeal that determination using the procedures provided in this section. If a non-requestor is the only appellant, the procedures provided in this section shall apply, except that the determination on the appeal shall be made within 30 days after receiving the notice of appeal.

2-11-17 JUDICIAL REVIEW

Any party to a proceeding before the city council may petition for judicial review by the district court of the city council's order. The petition shall be filed no later than 30 days after the date of the city council's order.

2-11-18 CONFIDENTIAL TREATMENT OF RECORDS FOR WHICH NO EXEMPTION APPLIES

2-11-18.1 A court may, on appeal or in a declaratory or other action, order the confidential treatment of records for which no exemption from disclosure applies if:

a. there are compelling interests favoring restriction of access to the record; and

b. the interests favoring restriction of access clearly outweigh the interests favoring access.

2-11-18.2 If the City requests a court to restrict access to a record under this section, the court shall require the city to pay the reasonable attorney's fees incurred by the lead party in opposing the city's request, if:

a. the court finds that no statutory or constitutional exemption from disclosure could reasonably apply to the record in question; and
b. the court denies confidential treatment under this section.

2-11-18.3 This section does not apply to records that are specifically required to be public under Section 9 of this Ordinance or Section 63-2-301 of the Utah Code, except as provided in Subsection 4.

2-11-18.4 a. Access to drafts and empirical data in drafts may be limited under this section, but the court may consider, in its evaluation of interests favoring restriction of access, only those interests that relate to the underlying information, and not to the deliberative nature of the record.

b. Access to original data in a computer program may be limited under this section, but the court may consider, in its evaluation of interest favoring restriction of access, only those interests that relate to the underlying information, and not to the status of that data as part of a computer program.

2-11-19 REQUEST TO AMEND A RECORD

2-11-19.1 a. Subject to subsection 7, an individual may contest the accuracy or completeness of any public, or private, or protected record concerning him by requesting the city to amend the record. However, this section does not affect the right of access to private or protected records.

b. The request shall contain the following information:

(ii) A brief statement explaining why the city should amend the record.

2-11-19.2 The city shall issue an order either approving or denying the request to amend no later than 30 days after receipt of the request.

2-11-19.3 If the city approves the request, it shall correct all of its records that contain the same incorrect information as soon as practical. A city may not disclose the record until it has amended it.

2-11-19.4 If the city denies the request it shall: a.

inform the requester in writing; and
b. provide a brief statement giving its reasons for denying the request.

2-11-19.5 a. If the city denies a request to amend a record, the requester may submit a written statement contesting the information in the record.

b. The city shall:

(i) file the requester's statement with the disputed record if the record is in a form such that the statement can accompany the record or make the statement accessible if the record is not in a form such that the statement can accompany the record; and

(ii) disclose the requester's statement along with the information in the record whenever the city discloses the disputed information.

2-11-19.6 The requester may appeal the denial of the request to amend a record pursuant to section 16 of the ordinance.

2-11-19.7 This section does not apply to records relating to title to real or personal property, medical records, judicial case files, or any other records that the city determines must be maintained in their original form to protect the public interest and to preserve the integrity of the record system.

c. It is a defense to prosecution under subsection (1)(a) that the record could have lawfully been
released to the recipient if it had been properly classified.

[Ord. 2000-4, Sec. 2]

3-3-4 REQUIREMENT TO MAINTAIN ELECTRONIC DATABASE OR ENHANCED ZIP CODE LISTING

1. Electronic Database.

   a. Provision of Database. The State may provide an electronic database to a home service provider; or, if the State does not provide such an electronic database, the designated database provider may choose to provide an electronic database to a home service provider.

   b. Format.

      (i) Such electronic database, whether provided by the State or the designated database provider, shall be provided in a format approved by the American National Standards Institute’s Accredited Standards Committee X12, which, allowing for de minimis deviations, designates for each street address in the City, including, to the extent practicable, any multiple postal street addresses applicable to one street location, the appropriate taxing jurisdictions, and the appropriate code identified by one nationwide standard numeric code.

      (ii) Such electronic database shall also provide the appropriate code for each street address with respect to political subdivisions that are not taxing jurisdictions when reasonably needed to determine the proper taxing jurisdiction.
(iii) The nationwide standard numeric codes shall contain the same number of numeric digits, with each digit or combination of digits referring to the same level of taxing jurisdiction throughout the United States, using a format similar to FIPS 55-3 or other appropriate standard approved by the Federation of Tax Administrators and the Multistate Tax Commission or their successors. Each address shall be provided in standard postal format.

2. Notice - Updates. The State or designated database provider that provides or maintains an electronic database described in Subsection (1) of this Section shall provide notice of the availability of the then-current electronic database and any subsequent revisions thereof, by publication in the manner normally employed for the publication of informational tax, charge, or fee notices to taxpayers in such State.

3. User Held Harmless. A home service provider using the data contained in an electronic database described in Subsection (1) of this Section shall be held harmless from any tax, charge, or fee liability that otherwise would be due solely as a result of any error or omission in such database provided by the City or designated database provider. The home service provider shall reflect changes made to such database during a calendar quarter, not later than thirty (30) days after the end of such calendar quarter. The State has issued notice of the availability of an electronic database reflecting such changes under Subsection (2) of this Section.

4. Procedure If No Electronic Database Provided.

a. Safe Harbor. If neither the State nor the designated database provider provides an electronic database, a home service provider shall be held harmless from any tax, charge, or fee liability in the City that otherwise would be due solely as a result of an assignment of a street address to an incorrect taxing jurisdiction, if the home service provider employs an enhanced zip code to assign each street address to a specific taxing jurisdiction and exercises due diligence to ensure that each such street address is assigned to the correct taxing jurisdiction. If an enhanced zip code overlaps boundaries of taxing jurisdictions of the same level, the home service provider must designate one specific jurisdiction within such enhanced zip code for use in taxing the activity for such enhanced zip code. Any enhanced zip code assignment changed is deemed to be in compliance with this section. For purposes of this section, there is a rebuttable presumption that a home service provider has exercised due diligence if the home service provider demonstrates that it has:

(i) Expended reasonable resources to implement and maintain an appropriately detailed electronic database of street address assignments to taxing jurisdictions;

(ii) Implemented and maintained reasonable internal controls to
promptly correct misassignments of street addresses to taxing jurisdictions; and

(iii) Used all reasonably obtainable and usable data pertaining to municipal annexations, incorporations, reorganizations, and any other changes in jurisdictional boundaries that materially affect the accuracy of such database.

b. Termination of Safe Harbor. Subsection (4)(a) of this Section applies to a home service provider that is in compliance with the requirements of Subsection (4)(a) of this Section with respect to a state for which an electronic database is not provided, until the later of:

(i) Eighteen (18) months after the nationwide standard numeric code has been approved by the Federation of Tax Administrators and the Multistate Tax Commission; or

(ii) Six (6) months after the State or a designated database provider in the State provides such database. [Ord. 2000-4, Sec. 2]

3-3-5 PLACE OF PRIMARY USE

1. A home service provider is responsible for obtaining and maintaining the customer’s place of primary use. Subject to Section 3-3-4 of this Chapter, and if the home service provider’s reliance on information by its customer is in good faith, a home service provider:

   a. May rely upon the applicable residential or business street address supplied by the home service provider’s customer.

   b. Is not liable for any additional taxes, charges, or fees based on a different determination of the place of primary use for taxes, charges, or fees that are customarily passed on to the customer as a separate address under existing agreements.

2. A home service provider may treat the address used by the home service provider for tax purposes for any customer under a service contract or agreement in effect two (2) years after the date of this amendment to this Chapter as that customer’s place of primary use for the remaining term of such service contract or agreement, excluding any extension or renewal of such service contract or agreement, for purposes of determining the taxing jurisdiction to which taxes, charges, or fees on charges for mobile telecommunication services are remitted. [Ord. 2000-4, Sec. 2]
3-3-6 TAX AGAINST CUSTOMER

Each customer shall accurately report the customer’s place of primary use. The customer shall be liable for any taxes not paid by the home service provider as a result of the customer’s failure to accurately report the customer’s place of primary use. [Ord. 2000-4, Sec. 2]

3-3-7 NONAPPLICATION

This Chapter does not apply to the determination of the taxing situs of:

1. Prepaid telephone calling services; or

2. Air-ground radiotelephone service, as defined in Section 22.99 of Title 47 of the Code of Federal Regulations as in effect on June 1, 1999. [Ord. 2000-4, Sec. 2]

3-3-8 IMPLEMENTATION DATE

If the ordinance codified in this Chapter is adopted before January 1, 2001, a home service provider shall have a minimum of thirty (30) days’ notice before being obligated to collect the tax described in this Chapter. After January 1, 2001, a home service provider shall have a minimum of sixty (60) days’ notice before being obligated to collect the tax described in this Chapter. Thereafter the applicant or his successor or assigns will be reimbursed by the City upon collection for fees assessed against the benefitted properties, as service connections are made. 2. The purpose of this Chapter is to ensure the provision of a safe and sanitary drinking water supply for the Gunnison City water system by the establishment of drinking water source protection zones surrounding the wellhead/springhead for all wells/springs which are the supply sources for the Gunnison City water system and by the designation and regulation of property uses and conditions which may be maintained within such zones. [Ord. 2002-2, Sec. 1]

9-6-2 DEFINITIONS

When used in this Chapter the following words and phrases shall have the meanings given in this Section:

Examples of possible pollution sources include, but are not limited, to the following: storage facilities that store the liquid forms of extremely hazardous substances, septic tanks, drain fields, Class V underground injection wells, landfills, open dumps, landfilling of sludge and septage, manure piles, salt piles, pit privies, and animal feeding operations with more than ten (10) animal units. The following clarify the definition of pollution source:

   a. “Animal feeding operation” means a lot or facility where the following conditions are met: animals have been or will be stabled or confined and fed or maintained for a total of forty-five (45) days or more in any twelve (12)
month period, and crops, vegetation forage growth, or post-harvest residues are not sustained in the normal growing season over any portion of the lot or facility. Two (2) or more animal feeding operations under common ownership are considered to be a single feeding operation if they adjoin each other, if they use a common area, or if they use a common system for the disposal of wastes.

b. “Animal unit” means a unit of measurement for any animal feeding operation calculated by adding the following numbers: the number of slaughter and feeder cattle multiplied by 1.0, plus the number of mature dairy cattle multiplied by 1.4, plus the number of swine weighing over fifty-five (55) pounds multiplied by 0.4, plus the number of sheep multiplied by 0.1, plus the number of horses multiplied by 2.0.

c. “Extremely hazardous substances” means those substances which are identified in the Sec. 302 (EHS) column of the “Title III List of Lists – Consolidated List of Chemicals Subject to Reporting Under SARA Title III.” (EPA 560/4-91-011)

An appeal stays all proceedings in furtherance of the action appealed from, unless the Zoning Administrator certifies to the Board of Adjustment after the notice of appeal shall have been filed with him, that by reason of facts stated in the certificate a stay would, in his opinion, cause eminent peril of life or property. In such case proceedings shall not be stayed otherwise than by restraining order which may be granted by the Board of Adjustment or by the District Court on application and notice and on due cause shown. (UCA 10-9-10)

10-2-3.7 Notice of Appeal - Right of Appearance

The Board of Adjustment shall fix a reasonable time for the hearing of the appeal or request, give public notice thereof as well as due notice to the parties in interest, and shall decide the same within a reasonable time. Upon the hearing any party may appear in person or by agent or by attorney. (UCA 10-9-11)

within the boundary of Special Improvement District established by the City for the
purpose of constructing a pressurized irrigation system (hereafter referred to as
“City SID area”), and (2) the owner thereof has contributed to the construction of
said system in accordance with the terms of the District regulations and policies, the
structure may be connected subject to:

a. A determination by the City Council that there is adequate capacity to ac-
   commodate the proposed development project or individual structure,

b. The installation, by the owner, of any extension of the main line or riser in-
   stallation required to provide service to the user (see Section 9-3-5), and

c. Payment of the applicable irrigation system connection fee.

Alternative B - Where the proposed development project or individual user (1) lies
outside the “City SID area,” and (2) is proposed to be served directly from the pipe-
line company (farmers) system or from a privately owned extension to said system,
the City may act to grant approval, subject to:

a. Receipt of a letter or other written evidence from the pipeline company and the
   owner of the private system, where applicable: (a) authorizing connection of
each lot or unit within the development project or individual structure to the
system, as applicable, and (b) indicating that the capacity of the system in
the proposed location is sufficient to meet the non-culinary needs of the
proposed use.
b. Approval by the City of the location, size and placement of any line extensions, risers and other details concerning the design and construction of the improvements. All proposed improvements shall conform to City standards.

c. (i) The owner shall submit to the City a certificate of stock for one (1) share per one-half (1/2) acre in Gunnison Irrigation Company. Multiple permits may be issued with a corresponding number of shares for each multiple of contiguous or adjacent building premises or lots. The stock certificate evidencing the water right shall be “lettered” with an inscription stamped on the certificate to the effect that this share(s) of stock is appurtenant to the lot, block or other designation or legal description of the property on which the water is to be used and the stock shall not thereafter be sold except as an appurtenance to and a right running with the land. The City Recorder shall notify the irrigation company of the legend and the dedication of that specific certificate to the land on which an improvement is to be placed.

(ii) Receipt of a written notice and waiver from the applicant absolving the City of all responsibility for maintenance of the irrigation lines serving the proposed user and all liability which may arise therefrom. A copy of the notice shall be recorded in the office of the County Recorder. In the instance of a subdivision or development project said notification shall be placed on the final plat prior to recording in the office of the County Recorder.

In lieu of recording the notice and waiver, as provided above, the City may act to accept title and maintenance responsibility for the pipeline provided: (1) the City Council determines that the proposed line represents a logical extension of the City system and has the capacity to provide adequate service therefrom, (2) the applicant conveys to the City, at no cost, one (1) share of Gunnison Irrigation Company stock for each structure or lot in the project or for each one-half (1/2) acre of area proposed to be served, whichever is less, and (3) the applicant provides satisfactory evidence that all outstanding assessments against the stock, with regard to the pressurized irrigation system (payment of the costs of the holding pond and transmission line and other joint improvements) have been satisfied.

NOTE: The Legend (stamp) referred to in Alternative B (c)(i) shall read as follows: “The water right represented by this Certificate is irrevocably dedicated as a perpetual appurtenance to land in Lot _____ Block _____ Serial Number __________, Gunnison City Survey and may not be alienated or otherwise used. Consult City officials for any further information.”

Alternative C - Where the proposed development project or individual user lies within the “City SID area,” but has been exempted from payment of SID assessments, or lies outside the “City SID area” and is not to be served by the pipeline company (farmers) system, the City may authorize the connection of the user or
project to the City system subject to:

a. A determination by the City Council that there is adequate capacity in the lines serving the proposed development project or individual user to accommodate the anticipated users, and that the additional demand will not be detrimental to the proper function of the system in the future.

b. The installation, by the applicant, of any required extensions to the main line, when applicable, and installation of individual riser, where required (see Section 9-3-5).

c. Conveyance to the City, at no cost, of one (1) share of Gunnison Irrigation Company stock for each one-half (1/2) acre or building lot in the proposed project served, whichever is greater. Also, the applicant shall provide satisfactory evidence that all assessments against the stock with regard to pressurized irrigation system (payment of the costs of holding pond and transmission line and any other joint improvements) have been satisfied (see Section 9-3-4.3).

d. Payment of the applicable irrigation system connection fee.

4. The size, location and placement of any extensions and risers and other details concerning the design and construction water, sewer or pressurized irrigation system shall conform to City standards, as directed by the City. The provisions of this paragraph shall also be applicable to any extensions to the irrigation company system. [Ord. 1995-4]

4. Each lot conforms to the requirements of the zone and will be adequately serviced.
5. The arrangement of roads, lots, easements, and other elements will provide adequate circulation and access and will result in a healthy, safe and attractive living environment.
6. The utility systems serving the area have sufficient capacity to provide adequate utility service to the development.
7. The subdivision layout will be consistent with the major street plan and other applicable elements of the Major Plan for the area.

The action of the Planning Commission shall be written on the face of two copies of the plan, one of which shall be retained in the files of the Planning Commission, and one of which shall be returned to the subdivider. If the plan is disapproved, the Planning Commission shall express its reasons therefor to the subdivider. Upon approval of the preliminary plan, the Planning Commission shall be committed to grant approval of the final plat, subject to full compliance with any conditions attached, unless in the opinion of the Planning Commission, the preliminary approval was given based on inaccurate or incomplete representations or that changes have occurred in conditions relating to the property which were not known or present at the time preliminary approval was given, and which would result in a significant detrimental effect to the public if the project were carried out as initially presented. Approval of the preliminary plan shall remain valid for a period of one year. Said approval may be extended or reaffirmed by the Planning Commission, for a period not to exceed one year, upon receipt of a written request from the owner.

   A. **Collector Streets (feeder)** - Where the area of a proposed subdivision includes any Collector class streets, as shown on the Major Street Plan, the subdivision plan shall incorporate such streets in the location shown on the Street Plan and the approval of the Final Plat shall include the dedication of the right-of-way and its improvement in accordance with the applicable City standards.

   B. **Minor Streets (local service)** - Where the area of a proposed subdivision includes any Minor class streets, as shown on the Major Street Plan, the subdivision plan shall provide for such street in the approximate location shown on the Street Plan and the approval of the Final Plat shall include the dedication of the right-of-way and its improvement in accordance with the applicable City standards.

   C. **No subdivision plan which proposes the deletion or significant realignment of any street shown on the Major Street Plan shall be given preliminary approval unless and until the Plan shall have been amended in accordance with State Law.**

2. **Relationship to Adjacent Streets.**

The proposed street system shall properly align and be compatible with adjacent streets.

3. **Access to Adjacent Properties.**

In order to facilitate the development of an adequate and convenient circulation system within the City and to provide access for the logical development of adjacent vacant properties, the City may, as a condition of approval, require the subdivision plan to include one or more temporary dead end street (stub streets) which extend to the boundary of the
subdivision. All such stub streets shall be fully developed to the boundary of the subdivision. Any plan for the subsequent development of the adjacent property shall provide for the continuation of any such stub street.

10-7-5.2 Streets and Roads - Right-of-way Width

The minimum width of Right-of-way for streets shown on the major street plan shall conform to the width as designated on the plan. The minimum right-of-way width for streets not shown on the plan shall be as follows:

<table>
<thead>
<tr>
<th>Class of Street</th>
<th>Right-of-way width</th>
</tr>
</thead>

10-7-5.4 Streets and Roads - System Design Standards

1. Reverse Curves
   Reverse curves shall have a tangent of at least one hundred (100) feet, unless in the opinion of the Planning Commission such is not necessary.

2. Street intersection
   Streets shall intersect each other as nearly as possible at right angles. Minor streets shall approach the major or collector streets at an angle of not less than eighty (80) degrees. Offsets in street alignment of more than fifteen (15) feet or less than one hundred twenty (120) feet shall be prohibited.

3. Street Grades
   The maximum grade of any street in the subdivision shall be 8 percent. Where the observance of this standard is not feasible, the City Council, subject to the prior recommendation of the Planning Commission, shall have the power to grant an exception when special pavement surfaces and adequate leveling areas are installed and in the opinion of the City the best subdivision of the land is thereby secured.
4. **Street Curves**
Where the street lines within a block deflect from each other at any one point more than ten (10) degrees, there should be a connecting curve. The radius of the curve for the inner street line should be not less than 350 feet for Collector class streets, 250 feet for an important Minor class street, and 100 feet for Minor streets.

5. **Curbs**
Where curbs are required said curbs at intersections shall be rounded with curves having a minimum radius of 15 feet for minor streets, and 25 feet for collector streets. Property lines at street intersections should be rounded with a curve where necessary to fit the curb radius.

6. **Street Names**
New street names should not duplicate those already existing. A street obviously a continuation of another already in existence should bear the same name. Before the street is named, the proposed name must be submitted to and approved by the City.

7. **Cul-de-sacs**
Cul-de-sacs (dead end streets) shall be used only where unusual conditions exist which make other designs undesirable. Each cul-de-sac shall have a minimum right-of-way width of fifty (50) feet and must be terminated by a turn-around of not less than one hundred (100) feet in diameter. The maximum length of a cul-de-sac street shall be 400 feet. Surface water must drain away from the turnaround, except that where surface water cannot be drained away from the turnaround along the street, due to grade, necessary catch basins and drainage easements shall be provided.

8. **Easements**
Easements of not less than eight (8) feet on each side of rear lot lines and side lines will be required where necessary for poles, wire, conduits, sewers, gas and water mains, and other public utilities. Easements of greater width may be required along property lines where necessary for surface overflow or for the extension of main sewers or similar utilities.

10-7-5.5 **Blocks - Design Standards**

1. **Length**
The maximum length of blocks, generally, shall be one thousand two hundred (1,200) feet and the minimum length of blocks shall be five hundred (500) feet. In blocks over eight hundred (800) feet in length, the subdivider may be required to dedicate a walkway through the block at approximately the center of the block. Such walkway shall not be less than ten (10) feet in width.
2. **Width** The width of blocks generally shall be sufficient to allow two (2) tiers of lots.

3. **Use**
   Blocks intended for business or industrial use shall be designed especially for such purposes with adequate space set aside for off-street parking and delivery facilities.

10-7-5.6 **Lots - Design Standards**

1. **Building Sites**
   The lot arrangement, design, and shape shall be such that lots will provide satisfactory and desirable sites for buildings, be properly related to topography and conform to requirements set forth herein. Lots shall not contain peculiarly shaped elongations solely to provide necessary square footage which would be unusable for normal purposes.

2. **Lots to Conform to Zoning Provisions**
   All lots shown on the subdivision plat must conform to the minimum requirements of the zone in which the subdivision is located.

3. **Corner Lots**
   Corner lots shall have ten feet extra width to accommodate the additional setback requirements.

4. **Angle of Lot Lines**
   Side lot lines shall be approximately at right angles, or radial to the street line, except where topographic conditions make it advisable to have side lot lines deflect at sharper angles.

5. **Parts of Lots**
   All remnants of lots below minimum size left over after subdividing of a larger tract must be attached to adjacent lots rather than allowed to remain as unusable parcels. Protection strips shall not be permitted.

6. **Multiple Ownership of Lots**
   Where the land covered by a subdivision includes two or more parcels in separate ownership and the lot arrangement is such that a property ownership line divides one or more lots, the land in each lot so divided shall be transferred by deed to single ownership before approval of the final plat, and such transfer recorded in the County Recorder’s office before being certified to the Planning Commission by the subdivider or the subdivision shall be considered as a joint project and the final plat shall be signed by all affected property owners.
7. Water, Sewer and Pressurized Irrigation Utilities

Each lot within the subdivision shall be served by the City’s water system through lines providing flow for both culinary and fire purposes. Each lot in the subdivision shall be served by the pressurized irrigation system in accordance with the provisions of Section 10-3-3.26.

10-7-6 SUBDIVISION IMPROVEMENTS

10-7-6.1 Improvements Required in Subdivision Projects - To Meet City Specifications - To Be Shown on Preliminary Plan

The performance guarantee shall be in accordance with the provisions of Chapter 10-8.

10-7-6.3 List of Required Improvements

The minimum improvements required for subdivisions within the City shall be as follows:

1. Streets and Roads - All streets, roads and vehicular travel ways shall be dedicated to the City for use by the public and shall be improved in accordance with the City standards, except that curb, gutter and sidewalk improvements will not be required for subdivisions or portions thereof adjacent to streets which are owned by the City and/or have been designated as proposed streets on the City Master Street Plan. The
only improvement necessary on this street is a twenty-four-foot (24') hard surface travel way.

Cul-de-sacs are excluded from this Section and must meet all of the requirements of the subdivision requirements, including curb, gutter and sidewalk. [Ord. 1995-8]

2. Culinary Water - Culinary water service shall be provided to the subdivision and each lot therein, as follows:

A. Where the subdivision is not adjacent to an existing City water main which is adequate to supply the development, the subdivider shall install one (1) or more lines connecting the subdivision with the closest adequate City line. Said off-site line(s) shall be considered as part of the required subdivision improvements.

B. Both off-site and on-site water mains and appurtenant valves and facilities shall be adequate to meet both culinary and fire flow requirements. In no case shall the water mains be less than six (6) inches in diameter.

C. To the maximum extent possible water mains shall be located in the right-of-way lines of public streets in the locations specified by City standards. Said mains shall be extended to the boundary of the territory shown in the final plat, including any stub streets required to provide for future access to adjacent property.

D. Water service laterals shall be installed to each lot within the subdivision. The lateral shall extend from the main line to the outer edge of the right-of-way and shall include the installation of a meter box and meter setter.

3. Fire Hydrants - All subdivisions shall have fire hydrants installed in such a manner that no dwelling unit on a lot will be more than five hundred (500) feet distance from the closest hydrant, measured along the street.

4. Sewers - Each lot within the subdivision shall be served by the City’s sewage collection system, as follows:

A. Where the subdivision is not adjacent to an existing City sewer main which is adequate to serve the development, the subdivider shall install one (1) or more mains connecting the subdivision with the closest adequate main. Any required off-site mains shall be considered as part of the required subdivision improvements.

B. Both off-site and on-site sewer mains and appurtenant manholes and facilities shall be adequate to meet both existing and future needs for the area. In no case shall the sewer main be less than eight (8) inches in diameter.
C. To the maximum extent possible sewer mains shall be located in the right-of-way lines of public streets in the locations specified by City standards. Said mains shall be extended to the boundary of the territory shown in the final plat, including any stub streets required to provide for future access to adjacent property.

D. Sewer service laterals shall be installed to each lot within the subdivision. The lateral shall extend from its connection to the sewer main to the outer edge of the right-of-way.

5. **Irrigation Water System** - Each lot within the subdivision shall be served either by the City’s pressurized irrigation system or by the pressurized irrigation system in accordance with the applicable provisions of Section 10-3-3.26.

6. **Electric and Telephone** - Electric power and telephone lines shall be provided to each lot. All lines and appurtenant facilities shall be located underground, except when the subdivider can show that the placement underground is not practically feasible.

7. **Street Signs** - Street signs shall be installed at all locations indicated on the preliminary plan. The location and design of said signs shall conform to minimum City standards.

8. **Storm Drains and Facilities** - To the maximum extent possible surface water produced from the subdivision development shall be properly disposed of within the boundaries of the subdivision through the use of sumps or other on-site techniques. All sumps, culverts, drains and other facilities for the collection and disposal of surface water shall be installed as directed by the City Engineer.

9. **Environmental Hazards**

Adverse environmental conditions must be eliminated or accommodated as follows:

A. **Soils:**

1) The placement of streets, buildings and the designation of building sites on areas of unstable soil shall be prohibited.

2) Soils with a significant erosion hazard shall be protected. Revegetation or other erosion control measures may be imposed as a condition of subdivision approval.
B. **Flooding:**

1) All subdivision proposals shall be consistent with the need to minimize flood damage and in accordance with the City’s flood hazard mitigation ordinance.

2) The subdivision layout shall make adequate provision for natural drainage channels and floodways.

3) All water, sewer and other utility systems and facilities located in designated flood areas shall be designed and constructed to minimize flood damage including the infiltration of flood water into the system, or discharge of the system into the flood waters.

C. **Other** - Where applicable, other adverse environmental conditions must also be eliminated or adequately accommodated. The additional conditions shall include, but not be limited to seismic, land slide, and ground water.

10. **Street Lights** - Within subdivisions the responsibility for providing street lights lies with the developer of the subdivision, not the City. If a subdivision plan does not provide for street lights, it shall be so written on the plat for that subdivision. If street lights are desired by the future property owners, the cost of installing these improvements will be the responsibility of the property owners themselves and not the City.

11. **Permanent Survey Monuments** - No less than two permanent survey monuments shall be installed in each subdivision. The location of the monuments shall be shown on the final plat. Also, all corners on the subdivision and all lot corners in the subdivision shall be marked.

**10-7-7 SUBDIVISION COSTS AND CHARGES**

Costs and charges in connection with the planning and development of subdivisions shall be borne by the subdivider.

**10-7-8 GENERAL REQUIREMENTS**

10-7-8.1 **Standards and Specifications**

The Planning Commission shall prepare standards and specifications for the content of subdivision plans and for the layout, design and construction of subdivisions and required improvements. Said standards and specifications shall

All streets shall be dedicated for public use and shall conform to the minimum
standards for width and improvement, except that the City Council may accept
the dedication of partial width street provided:

1. That said street is located at the border of the subdivision.
2. That the width proposed for dedication shall be sufficient to accommodate
   the minimum travel way and all utility systems as set forth in City
   standards.
3. That there are not existing conditions which would prevent the subsequent
devlopment of the remaining portion of the street.
4. That construction of a partial width street at the proposed location will not
   create an unsafe or hazardous condition.

10-7-8.3 Lots Must Abut on Public Street

Each lot in a subdivision shall abut on a street dedicated to the City by the
subdivision plat or an existing public street, either dedicated or which has become
public by right of use, and is more than fifty feet wide. Interior lots having frontage
on two streets are prohibited except in instances where topographic conditions
make such design desirable.

10-7-8.4 Amended Plats

No change shall be made in a plat which has received final approval unless and
until approval for said change has been given by both the Planning Commission
and City Council.

Any proposed vacation, alteration or amendment of a subdivision or portion of a
subdivision for which a Final Plat has been recorded in the office of the County
Recorder, or of any street, lot or alley contained in the plat shall require: (1) that the
entire plat or portion affected by the proposed change be vacated in accordance with

Plans showing the location, size, grade and depth of all water and sewer mains, valves, manholes and other subsurface utility and service lines and facilities shall be required prior to the release of performance guarantees.

10-7-8.7 **Variances**

Variances to the strict application of the standards and specifications adopted pursuant to Section 10-7-8.1 may be authorized by the City Council after recommendation from the Planning Commission. Such variances will be granted only upon a finding that, because of topographic or other unique physical condition, the standard appealed from:

1. Is unnecessary for the proper development of the subdivision and will not be required in the future.
2. Would cause an unreasonable hardship if adhered to, and
3. May be granted without destroying the intent of the standard of this Code.

Any variance so authorized shall be stated on the final plat.

10-7-8.8 **Review Fees**

(See 10-3-1.4)
CHAPTER 10-8

The date of beginning for the performance period shall be the date of final approval by the City.
10-8-4 PARTIAL RELEASE PERMITTED

Where a guarantee is posted for the purpose of insuring the timely installation of required improvements in a subdivision, Planned Unit Development, or similar project, the City may authorize a release of a portion of the guarantee in an amount commensurate with the proportion of improvements completed.

10-8-5 FINAL DISPOSITION AND RELEASE

At the completion of the work, or not less than ten (10) days prior to the release date of the bond or other assurance, the developer shall submit to the City one copy of a Certificate of Completion. Following receipt of the certificate, the City Engineer shall make a preliminary inspection and shall submit a report to the City Council setting forth the conditions of such facilities. If the condition of said improvements or activities for which the guarantee is required are found to be satisfactory, and all liens are paid, the Council shall authorize release of the remainder of the guarantee except for that portion to be held as a durability retainer.

If the condition of material or workmanship shows unusual depreciation or does not comply with the acceptable standards of durability or if any outstanding liens are not paid, or the terms of the guarantee have not been satisfied, the matter shall be referred to the City Council and, in accordance with the provisions of 10-8-6, the Council may declare the developer in default.

Such retainage shall be a guarantee of the durability of said improvements. If during the one year period, the durability of said improvements are found to be
satisfactory, said retainage may be released following the procedure outlined under Section 10-8-5. If however, during said period, the condition or material or workmanship of the improvement or improvements fails or shows unusual depreciation, or if it becomes evident that certain work was not completed, or that said improvements do not otherwise comply with accepted standards of durability, said condition shall be corrected by the person giving the performance guarantee. If the corrections are not made within a reasonable time, the City Council, in accordance with Section 10-8-6, may declare such person in default and use the retainage to defray the cost of any required work.
