Uintah City Fire Department

WILLIAM POPE
Fire Chief

January 2014

Uintah City Business Owner
Uintah, Utah 84405

Dear Business Owner,

The Uintah City Fire Department has implemented a new fire and life safety self-inspection program to improve the overall fire and life safety in our community. The attached self-inspection form will be used to supplement our already existing Fire Prevention Program and help your business to maintain code compliance and a safe environment.

Please read the instructions on the enclosed self-inspection form and complete all of the pages.

Please sign and date the self inspection form and **return it with your business license renewal to City Hall. All businesses must complete the inspection, including rental units.**

LICENSES WILL NOT BE ISSUED UNTIL A SELF-INSPECTION FORM HAS BEEN TURNED IN WITH THE RENEAL APPLICATION

Late Fees Will Apply

The Uintah City Fire Department will continue to conduct on-site inspections of businesses within the city. These inspections will be conducted either through initial licensing, scheduled program, randomly, or through specific request by the business owner. It is the goal of the fire department to reach every business each year, however that is not always practical. The Fire Department is committed to working with all of our businesses and residences to ensure compliance with all fire safety codes.

If you have any questions concerning this self-inspection form, please feel free to contact the Fire Chief at **(801) 425-2802** or email wpope2953@gmail.com

Very Respectfully,

William Pope
Fire Chief
