Clerk - Tammie Morgan  
Treasurer - Stacey S. Hill  
Fire Chief - William A. Heyder, Jr.  
EMS President - David Smith

May 9, 2014

To Whom It May Concern:

The Snowville Town and its residents strongly oppose the approval and permitting of the proposed landfill site along I-84 at exit 16. The Snowville Town has environmental, scenic, and aquifer concerns that could be detrimental in the future to Snowville Town. The town of Snowville has been aggressively working with state and county officials on economic development and tourism in the area. The town of Snowville feels that a landfill in the area would undermine and squash our efforts for future development in those areas, which is our number one priority for the town. We feel the big question is, is there a need to turn Box Elder County into a dumping ground for non-county residents. We say no, the county has plenty of landfill space at Little Mountain and with the permitted landfill at Promontory we are able to help our neighboring counties for the next foreseeable future. We fully support all the neighbors in the affected area in their concerns and opposing of another landfill.

Sincerely,

Timothy Heyder, Mayor  
Snowville Town
