- Going directly to the Microsoft website at www.microsoft.com is always a great place to start looking for answers to any questions you may have in regards to the program. After getting to the Microsoft website you can use their search function to search the site for the information you are looking for.
- YouTube is a great resource for tutorial videos on how to do specific things in Windows Movie Maker or any other program for that matter. As with the Microsoft site, go to www.youtube.com and use their on-site search function to locate the types of tutorial videos you want to see.
