Block Assembly

1. Layer one 2 7/8" fabric H square right sides together with one fabric M square. Draw a diagonal line on the wrong side of the top square. Sew 1/4" on each side of the drawn line. Cut the squares apart on the line to make two half-square-triangle units, measuring 2 1/2" square. Repeat to make 80 H/M half-square-triangle units for block A.

2. Repeat step 1, sewing together 2 7/8" fabric I squares and fabric M squares to make 80 I/M half-square-triangle units for block B.

3. Draw a diagonal line on the wrong side of each 2 1/2" fabric C square. Place a marked square on one end of a fabric H rectangle, right sides together. Sew on the marked line and trim away the corner fabric, leaving a 1/4" seam allowance. Press the resulting fabric C triangle open. In the same way, sew a marked square to the other end of the rectangle. Trim and press. Make 40 C/H flying-geese units for block A.

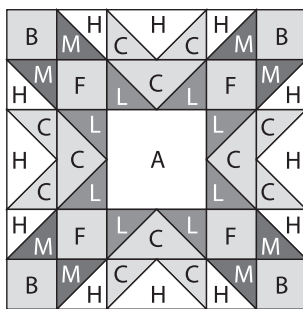

4. Repeat step 3 to make flying-geese units using 2 1/2" fabric L squares and fabric C rectangles. Make 40 L/C flying-geese units for block A.

5. Repeat step 3 to make flying-geese units using 2 1/2" fabric G squares and fabric I rectangles. Make 40 G/I flying-geese units for block B.

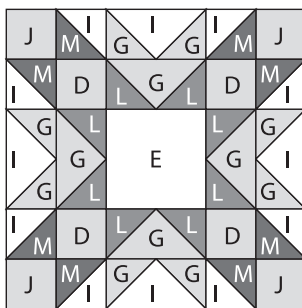

6. Repeat step 3 to make flying-geese units using 2 1/2" fabric L squares and fabric G rectangles. Make 40 L/G flying-geese units for block B.

7. Referring to the diagram for block A, lay out one fabric A square, four 2 1/2" fabric B squares, four 2 1/2" fabric F squares, eight H/M half-square-triangle units, four C/H flying-geese units, and four L/C flying-geese units. Join the pieces into rows and then join the rows to make a 12 1/2" block. Repeat to make 10 A blocks total.

8. Referring to the diagram for block B, lay out one fabric E square, four 2 1/2" fabric D squares, four 2 1/2" fabric J squares, eight I/M half-square-triangle units, four G/I flying-geese units, and four L/G flying-geese units to make a 12 1/2" block. Repeat to make 10 B blocks total.

Fusible Appliqué

9. Following the manufacturer's instructions and using the patterns, trace 31 of each flower shape onto the paper side of fusible web. Roughly cut out each shape, leaving about 1/4" margin all around the drawn lines.

10. Fuse the large flower to the wrong side of fabric K and the small flower to the wrong side of fabric L. Cut out each shape on the drawn lines.

Quilt Top Assembly

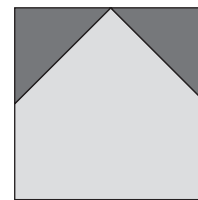

11. Sew together two A blocks and two B blocks, alternating them to make a row. Repeat to make five rows total.

12. Join the rows, making sure block A is the first block in rows 1, 3, and 5 and block B is the first block in rows 2 and 4. The quilt top should measure 48 1/2" x 60 1/2".

13. Refer to the quilt photo to fuse the large flower appliqué and small flower appliqué to the quilt top as shown. Finish the raw edges of the appliqué shapes as desired.

14. Join the fabric K strips end to end to make a long strip. Cut two 60 1/2"-long strips and sew them to the sides of the quilt top. Cut two 52 1/2"-long strips and sew them to the top and bottom of the quilt top. The quilt top should measure 52 1/2" x 64 1/2".

15. To make a border block, draw a diagonal line on the wrong side of each 2 1/2" fabric L square. Place a marked square on one corner of a fabric A square. Sew on the marked line and trim away the corner fabric, leaving a 1/4" seam allowance. Press the resulting fabric L triangle open. In the same way, sew a marked square to an adjacent corner of the square. Trim and press. The block should be 4 1/2" square.

16. Repeat step 15 using the remaining assorted 4 1/2" cream squares and marked fabric L squares to make 58 border blocks total.

17. Randomly sew together 16 border blocks as shown in the photo to make a 64 1/2"-long side border strip. Make two and sew them to the sides of the quilt top.

18. Randomly sew together 13 border blocks and two 4 1/2" fabric L squares as shown in the photo to make a 60 1/2"-long top border strip. Repeat to make a bottom border strip. Sew the borders to the quilt top.

19. Layer the quilt top, with batting and backing; baste. Quilt as desired. Using the 2 1/2"-wide brown strips, bind the edges to finish.
