

InfoKey™

Multi-tasking in an Information Hub

For easy access to information by your customers and staff, the InfoKey™ kiosk is the answer. Unlike other self-service hardware options on the market, PAR's InfoKey kiosk can support many different uses within your business in a compact, streamlined package.

InfoKey™

Built with the setting and user in mind, InfoKey™ features a clean, simple design—appropriate for public areas and non-intimidating to your customer. The scratchproof casework is fade-resistant, with prominent locations for your company's logos on front and back and end caps that can be customized to your preferred colors. The kiosk can be wall mounted or used with a tabletop swivel mount. Both installation types are engineered for full ADA compliance.

A touch screen/keyboard combination makes the InfoKey suitable for a variety of applications. Put PAR's kiosk to work to help you:

- Attract top-notch employees and reduce pre-employment screening costs.
- Quickly and efficiently train employees on operational procedures.
- Centralize access to standard employee forms.
- Display interactive promotional content to customers.
- Recruit for and manage loyalty programs.
- Provide on-demand information regarding community involvement and upcoming events.
- Provide a protected web portal to select web sites that communicate brand values and corporate messaging.

Give your employees and guests a hardworking information hub with the PAR InfoKey.
