

Comfy Couch Quilt (for my hubby – he is 6'4")

Finished Quilt Size – 65"x85.5"

Supplies Needed –

6 Fat Quarters – Blocks

2 $\frac{3}{4}$ yards – Olive Green Background

$\frac{1}{2}$ yard – Plaid for Middle Row

$\frac{1}{2}$ yard – Border 1

$\frac{1}{2}$ yard – Border 2

1 yard – Border 3

Cutting Directions –

*Cut from 5 Fat Quarters – 3 inch strips to get a total of 7-3 inch strips per Fat Quarter

Cut these into 6 – 3x4 inch strips and 6 - 3x9 inch strips (you will get enough from one Fat Quarter to do 3 blocks)

*Cut from 1 Fat Quarter – 2.5 inch strips to get a total of 7 – 2.5 inch strips (this will be in the middle section of your quilt with the plaid)

*Cut from 2.5 yards (olive green Background) – 20-4x9 inch strips and 20-4x16 inch strips

15 – 4x4 inch squares

You will have enough of this to cut 4 – 6 inch strips from the Length of Fabric (this will be the long strips that surround the middle section)

*Cut from $\frac{1}{2}$ yard (plaid for middle row) – 4 – 9x11 inch pieces and 2 – 5x11inch pieces

*Cut from $\frac{1}{2}$ yard (border 1) – 8 – 3 inch strips

*Cut from $\frac{3}{4}$ yard (border 2) – 8 – 5 inch strips

Creating the Blocks –

Step 1: You will create the 15 inside square blocks first – sew the fat quarter strips around the 4x4 inch squares.

As shown here...

You will create 15 blocks →

These Blocks are the middle of all 15 blocks. The 4x4 inch square in the middle is the olive green background and the surrounding strips should be from your Fat Quarters.
