

WINTER SNOW REMOVAL

One of the goals of Lindon City staff and elected officials in “Making Life Better” for Lindon residents is to provide safe and efficient snow removal on City streets following winter storm events. Depending on the size of the storm, and the amount of snow on the streets, removal throughout the City can take several hours once the storm has subsided. Following are some ways you can do your part to help.

- Overnight on-street parking is not allowed during winter months. Please park all vehicles off the street. This will help expedite safe and efficient snow removal. Vehicles parked on the roadway create unnecessary obstacles, and can slow the process of proper snow removal. Damage to vehicles left parked on roadways is also possible during snow removal work.
- Keep other obstacles, such as portable basketball hoops, trash cans, and trailers off the street and sidewalks during winter months, and especially following storm events.
- SLOW DOWN, and drive with extra caution in adverse weather conditions and on slick roads. Allow yourself adequate time to arrive safely at your destination given current driving conditions. Your safety and the safety of other motorists and pedestrians is the highest priority.
- Travel a safe distance from snow plows at all times to avoid damage to your car. Please be patient and do not try to pass or stop snow removal vehicles.
- NEVER allow children to play near or in a snow berm at the side of the roadway. Snow plow drivers may not be able to see your children. This presents a significant safety concern which should be avoided.
- Limit your travel as much as possible during storm events. Keep an emergency kit with blankets, warm clothing, a flashlight, food, and water in your vehicle in case you become stranded during a storm. Then BUCKLE UP and enjoy the beautiful Utah winter landscape.

Traveling the roads of Utah during the winter months may take a little more time and planning. These guidelines will keep you, other motorists, pedestrians, and Public Works snow removal personnel (not to mention your vehicle!) safe on the winter roads.
