Quilt Sampler News

Can you believe it? It seems like the grueling heat of the summer just ended and now the holidays are just around the corner. Time to get busy on those projects—you know, the ones I vow to start in January... Oh well. But it's a good thing I waited this year. There are all kinds of great gift ideas that we just found. Like the Necessaries pattern from Patterns by Annie—it has all kinds of ideas for bags and wallets and eyeglass cases that will be GREAT for all those gift things. (Unless I decide to keep them for myself!) You can do the whole set from 4 fat quarters and 1/2 yard of Soft and Stable. If you haven't tried the Soft and Stable, it's this wonderful lining for bags that is lightweight but gives them a professional look. And can you ever have enough bags?

Don't forget to stop by the store and fill out your wish-list. We have a gift registry (kind of like for brides!) that we keep in the computer so when your loved ones come in, we can send them home with the perfect gift for you. So do them a favor, come in and pick out those kits, books, machines, etc. that you've been dreaming of. And it never hurts to get a few little items for yourself....

Happy Stitching!

Let's Get Technical!

The Creative Sensation is Pfaff's new top of the line machine! It took the best of the Creative Vision and made it even better. One of the best features is *ActivStitch™* Technology. This feature really shines during embroidery due to the precise nature in which the tension unit meters out the thread. The machine senses the thickness of the fabric and also meters the thread that is moved through the tension unit. Most other machines pull the thread through the tension unit via the feed system. The *ActivStitch™* Technology feeds the thread through the tension unit, only allowing the exact amount of thread that is needed to perfectly form a stitch!
