Mariner's Compass Book By Judy Mathieson
1/3 yd. of 7 different colors of fabric
1/2 yd. for background
quarter guide-to mark outer borders of each section
old scissors for cutting paper
sewing machine with wound bobbins
iron and mat
rotary cutter and small mat or rotating mat(opt.)

Class goal is to have the center of your compass finished by end of class.

Having your own mat and cutter, iron and mat helps to speed things up so you are not waiting around to use the shops. Lots of cutting and ironing for this project.

You will have your choice of 2 different compass patterns, one of which you will make in class. Also will give you paper pattern for the outer border shown in book. Make sure you already have your fabric purchased before class.
