This is a beautiful project when finished. The templates that are provided are very easy to use. Make sure you peel the paper off your templates before class to save time. This project will take whole time slot just to do the baskets. She has suggested a floral strip for large diamond shapes to save time and fabric for project. Choice is yours. I will have samples of each step and the different fabric choices. This is will be a challenge but will be worth it. Hope to see you in class.
