

Scott Coleman

I graduated from Utah State University in 1995 with a bachelor's degree. My major area of study was accounting with a minor in political science. I have been working as an accountant since that time. I have had the opportunity to gain valuable financial experience with government and private institutions during my career. I have audited cities, towns, counties, and other government organizations as well as many different private companies. In auditing government entities it has given me an understanding of tax revenues and how they flow from the state and county to individual cities and communities.

I am currently serving my community as the Treasurer of the Bear River Valley Chamber of Commerce, the Secretary of the Board of Directors for the Box Elder Credit Union, and the Chairman of the Garland Elementary School Community Council.

Given my experience with government and private financial issues, I feel I would be a great advocate for the citizens of Garland to direct and monitor the uses of our financial resources. I would love the opportunity to serve the City of Garland and help guide our future.
