FOR THE LOVE OF SEWING

So many quilting features, it's music to my ears.

The Symphony has all of my favorite Baby Lock features combined in one masterpiece of a machine, allowing me to perfectly blend time-treasured techniques with modern day conveniences. The Advanced Pivoting Feature and 1/4" foot give me so much accuracy in my patterns, I have to sing the praises. And with 460 stitches to choose from, 17 feet, and a speed of 1,000 spm, you can hit all the right notes. With so many amazing features coming together in one machine, the Symphony lets you quilt with a full range of creativity.

For the love of sewing.

Eleanor Burns
 PBS Host of "Quilt in a Day"

Key Quilting and Sewing Features

LCD Touch Screen (240 x 320)
 The Symphony's easy-to-read touch screen makes it simple to access your machine's stitches and settings.

460 Built-in Stitches
 Choose from 460 built-in stitches with a maximum stitch width of 7mm to quilt at speeds of up to 1,000 spm. You can even combine and save stitches to your machine or PC.

Built-in Stitch Memory
 Remembering the best stitch for your favorite projects is easy with the built-in stitch memory, which lets you edit and save your stitch width, length or even your own pattern.

USB Type B
 Quickly save stitches to your PC, and easily access future machine upgrades with this USB Type B port.

Advanced Pivoting Feature
 Pivot your fabric without interrupting your work. This makes turning corners, following curves and maneuvering around appliqué shapes hassle free.

Advanced Needle Threader & Automatic Thread Cutter
 The Advanced Needle Threader lets you thread with one hand, with five LED lights illuminating the workspace. The Symphony will even automatically cut the upper and lower threads for you.

Automatic Fabric Sensor System
 The Automatic Fabric Sensor System continuously senses your fabric to deliver the perfect amount of pressure and thread tension when quilting with layers.

Quick-Set, Top-Loading Bobbin
 The top loading bobbin case lets you focus on your sewing. It's jam-proof because the top-loading bobbin keeps the thread right where you need it.

Accessories For Additional Sewing Features

Free-Motion Quilting Feet make quilting techniques easy

Quilting Foot
 Supports fabric when using a straight stitch.

Open Toe Quilting Foot
 Increases visibility and support for decorative and zig-zag stitches.

Echo Quilting Foot
 Includes guides that show you where to stitch for a perfect echo effect.

Bobbin Work Capabilities:

Achieve the look of handwork stitches with heavier thread using the special alternate bobbin case.

Ergonomic, Hands-free Presser Foot Lift

Raise the presser foot by simply moving the attachable lever with your knee. This leaves both of your hands free for extra control on detailed stitches.
