If you bought a kit from each store you will have a coordinated quilt of three different Reds and Kona Snow. The same blocks from the different stores may be different fabrics, they will all work well together no matter where you place them in the layout.

For simplicities sake I have left the blocks the same color for this diagram. Sew each row together as shown below paying attention to how the individual blocks are turned. The following Rows have the same blocks: Rows 1 \& 9; Rows 2 \& 8; Rows 3 \& 7; and Rows 4 \& 6. Only Row 5 is not duplicated

Row 2
