

## The Heartspun Quilts book of Quilting Hints, Tips, Secrets & How-To's

When I teach a quilting class, I often distribute “How-To” handouts covering a wide variety of quilting subjects. Quilters really love having these “How-To” tips and hints to take home as a handy reference and they have been asking me for more. As a matter of fact, as I started thinking about it, I have a lot more – **tips and hints**, that is. So, after years of collecting the best, most useful tips, hints, secrets and how-to's, I've compiled them all into a 65 page book loaded with more than 120 graphics!

You will find tips and hints on everything quilting -- including pins, thread, needles, fabric preparation, pressing, accurate 1/4 inch seams, basic quilting math, how to re-size blocks and quilts, how to calculate yardage and so much more!

You will learn about alternate piecing methods for Half Square Triangles, Quarter Square Triangles, Flying Geese, Corner Square Triangle, and Square-in-a-square blocks. There is also an entire chapter on how to make them larger so you can trim them to perfection! You will learn all about perfecting Connector Corners (a.k.a. “flip & sew”) and how to create quilt labels using your computer! There is also a bonus original quilt pattern included in the book!

The Hints book is chock full of very useful information and hands-on piecing tips, tricks and hits on the most commonly used quilting units and blocks! This book goes hand in hand with my most popular lecture (Secrets of Professional Quilters ~ Revealed) and workshop (Practice What I Preach).

The book price is \$15 plus \$4.95 for Priority Mail postage within the U.S.A. Email me for prices outside of the US.
