

## Patternlets Pumpkin Bag Ideas

### **P05 Pumpkin Patternlet (or any of the patternlets!)**

I purchased a pre-made denim bag from my local craft store and applied the pumpkin to the front (I used the machine to put on the buttonhole stitch. It was just a matter turning the bag so there was nothing behind it. Sew, turn, sew, turn, etc. It was actually a lot easier than I thought it would be!) Then I cut a strip of orange fabric 2 1/2" wide and enough length to get around your bag plus properly overlap in the back. Turn the strip with the wrong side up and fold the front edges of the strip to the back and meeting in the center. Iron all edges. (Be sure to turn under one **end** of the strip and press. This will be the edge that overlaps the other edge in the back of the bag to give it a nice, clean finish.) Pin the strip to the top edge of the bag, and sew a seam along the top and bottom edge. Embellish with buttons.
