New Patterns!

The first six of our *Little Quilts² Again!* patterns will be available May 1st!

We will have September through February patterns available for purchase on May 1st! All twelve patterns will be on our website so you can see the whole series, but only the first six will be available for purchase at this time. As many of you know, this was originally released as a quilt-of-the-month series for Fons & Porter, and they will be finishing up the program this year with the August quilt. Our March through August patterns will start selling in October.
