Hello All,

It's hard to believe that it's been almost a year since we opened our doors in Madison. We've been having a blast, and have been happy to see so many familiar faces as well as so many new ones.

We've been adding new products as fast as we can, and want to thank those of you that made suggestions for items for us to carry. We are always looking for new products and hope that you will keep sharing your ideas for new products with us.

We are changing our weekday hours for the summer. Monday thru Friday we will open an hour earlier at 9:00 AM and closing an hour earlier at 5:00 PM. Our weekend hours will remain the same.

We are very excited about our Summer Get Away 3 day shop hop bus trip we are having in June. You will find full details inside this newsletter. We hope you can join us.

Buck a Block will be starting here in June. Buck A Block #8 is new for 2011. Come in every month and pick up the fabric kit for a Buck (\$1.00) and at the end of the year you will have a wonderful variety of blocks for a quilt top. We will have 2 or 3 color schemes for you to choose from.

We hope you enjoy your summer, but don't forget to come in for classes and to check out the new products. Both Pfaff and Husqvarna Viking are introducing some great new machines over the next few months. Don't miss out on seeing what's new in the sewing world.

Quilt As You Go

Friday, July 15 10:00-4:00

Instructor: Rose Mary Huber Pauls Fee:\$40.00

Quilting a large project can be too much to handle. Come and learn how to layer and quilt smaller units and then join them together. Most quilt as you go techniques leave you with thick lumps where the layers of batting, backing and the quilt top are joined together, but this technique will not. The only thing that will let anyone know it was a "quilt as you go" is a narrow 1/2 inch strip of backing fabric covering the seam on the back. There's no bulk from a seam in the batting, because there won't be a seam like you might expect. This quilt as you go technique can be applied to most quilt designs and will be discussed in the class. Skill Level: Advanced Beginner and up. A supply list available.
