SewMate Base Model Shown in African Ebony

CUSTOMIZED FOR EVERY INDIVIDUAL

Koala understands that each sewer has a preference for the height of their studio, due to both the height of the sewer and the type of projects they'll be completing. Each Koala Studio can be raised either 3" or 6" for sitting comfort or a height more suited for cutting.

Of the ten Koala Studios, you can customize the height of your studio at 29 1/4", 32 1/4", 35 1/4" and 38 1/4". Models that are 35 1/4" and 38 1/4" include an adjustable foot control rest and platform.

The Treasure Chest Plus IV, StorageCenter Plus and CraftPro IV and the SewMate Plus IV are limited to one 3" height modification.

UNPARALLELED QUALITY

Koala Studios are built in the United States with the utmost in craftsmanship and quality. EXCLUSIVE REMOTE-CONTROLLED ELECTRIC GLIDE LIFT

Koala's lift and platform evenly supports the largest and heaviest machines with a load capacity of 169 lbs. With just the push of a button, the remote control can stop the machine in any position with no effort or mechanical lift adjustment. In every position, including the top embroidery position, the machine platform will remain solid and steady while evenly supporting your machine.

100% SMOOTH SURFACE

Every corner is rounded and beveled, with no exposed hinges or rough edges on leafs or extensions. This eliminates any drag or snagging of fabric and gives that fine furniture touch.

TOP QUALITY HARDWARE

Koala Studios are built with steel components, including a 270° heavy gauge door and weight-bearing barrel hinges. You'll also find locking casters with non-marking polyurethane tires. And they look beautiful.

STEEL DRAWER GLIDES

Koala drawers feature full-extension steel drawer glides with silent soft-closing hydraulic cushions that prevents drawers from slamming. Each drawer has been weight-tested to hold 120 lbs.

Koala knows that you'll want to start using your new studio right away – that's why we've taken all of the work out of the delivery. Each Koala Studio arrives at your home fully-assembled with casters and hardware in place. Want your studio upstairs? No problem; it will be moved from the truck to the room of your choice.
