Pattern sheets will need to be downloaded from: piecebynumber.com

Once there click on the 'Freebies' Tab

'Geometrics & Star Blocks' Tab

'A Circle of Geese' Tab

Once "A circle of Geese" opens up, read through all the printing directions. If you don't and just print your pages may be incorrect sizes.

You will need to print 4 patterns of each set. We will be finishing the blocks into a 16" pillow, so one block direction will be the front and one will be the back.

I will be showing you how to measure your pieces but will also have a cutting guide for you.

For the "background" fabric you will want approx. 2 yards of fabric. This will most likely end up being more than you will use, but you don't want to be short and will want extra if you miss cut(believe me, it happens) ☺

For the "Geese" Pieces of your blocks $\frac{1}{4}$ yard should do it. If you want more for miss cutting, I suggest about $\frac{1}{3}$ yard. (Fat Quarters will work too)

If you want to finish the blocks into a pillow please also purchase a 14" zipper.

If you have any questions about supplies or need help getting pattern pieces Please feel free to call me or email me.
