

Fusible web #1

This is a technique class, so there is a kit required for consistency.

You will need to purchase either the snowman trio kit or the wildlife trio kit. These are required for the class.

You will not need your sewing machine, there is very little sewing in the pattern provided and can be completed at home.

But you will need a mechanical pencil or pencils!! :)

And a nice sharp pair of scissors

I will go over the supplies I like to use and what make it easier for me- these will be available for purchase during class if you find that they help you too!
