

Class Supply List

Class: Quilt as You Go

Instructor: Carol Wight Jones

Description of Class: This is an easier way to quilt those large quilts that are so hard to get into the confined space of your sewing machine. You will be working with 8 inch blocks, and will do 6 to 9 blocks in order to learn the technique of putting them all together.

Please note that this is not a class in quilting technique, rather it is a class on putting the quilted blocks together. If you need quilting technique, please take the Fearless Machine Quilting 1 class.

Also note that the blocks in the sample are from the Embellishments 7 class, Textures in Fabric. We will not be doing that in this class either. You may choose any blocks you wish.

Fabric Requirements:

If you have blocks already made that you would like to use in this class, that will be fine. Otherwise, bring the following:

- 9 scrap blocks that are about 9 inches square for tops of blocks
- 9 scrap blocks that are about 11 inches square for the backs of blocks
- Note: you can use yardage if you prefer, and cut them into the specified sizes.
- 9 scrap pieces of batting that are about 10 inches square
- Fabric for sashing strips and binding– 3/4 yard

Tools and Notions Required:

- Basic sewing supplies
- Thread for quilting your blocks
- Thread for the bobbin
- Rotary cutting equipment
- If you have a rotary cutter with a scalloped blade, bring it (not required)
- Sewing machine in good working order, power cord and foot pedal
- Free motion quilting foot
- Walking foot
- Fusible web, such as Steam-a-Seam2-1 yard

Questions: 646-9922 or 441-0746
