Pro-Stitcher - #BLPS

The Pro-Stitcher quilting software is the perfect program for any Baby Lock Crown Jewel owner looking to create more exquisite quilts than ever before. Not only can quilters smoothly transition from free-motion to computerized quilting, but they can also edit and create custom quilt patterns with the built-in Art & Stitch™ program. Additionally, there is no extra PC required to use Pro-Stitcher because it comes with its own!

- 10.1" Color touch screen PC mounts directly on the Crown Jewel machine
- Create and save free-motion designs or designs from pantographs
- Download patterns through USB port
- Rotate, resize and repeat designs
- Precise positioning
- Preview design path prior to stitching
- Reverse function
- Ability to set number of tie-off stitches
- Settings for quilting speed and stitches per inch
- Easy-to-use graphic settings and quilt menus
- Includes Art & Stitch software for designing patterns

QuiltMotion Software - #BLJ18-QM

Take your quilting to the next level with the QuiltMotion software, designed specifically for the Baby Lock Crown Jewel. Choose, edit or even create quilt motifs on your PC, then transfer your patterns to the machine and hardware for automatic quilting with flawless placement. This is a must-have creative tool for every quilter!

- Automatically stitch to the exact dimensions of your quilt
- Adapts to block size and shape for error-proof placement, even inside asymmetrical blocks
- Use one of 300 patterns built into the program, with 100 exclusive to Baby Lock.
- Digitize/create your quilt block, pantographs and borders - Trace, Paper pattern digitizing, Free-hand drawing and recording, Whole quilt designs
- Editing functions include: Mirror, Rotate, Flip, Scale, Stretch, Copy, Combine
- Saves patterns
- Easy, precise placement method using tools and wizards
- Flow-through quilting allows you to connect your PC to machine to transfer information in real time
- Easy-to-read LCD which guides you through any process with help menus on every screen
- Instructional tutorial DVD for software
- Powered by QuiltCAD, the most successful stitch pattern software available
- Includes: Software, LCD display on swivel mount, 15' USB cable, Housing/carriage plate

FOR THE LOVE OF SEWING

Crown Jewel Longarm Quilting Machine

FOR THE LOVE OF SEWING

LONGARM QUILTING MACHINE

Presenting the Crown Jewel

The Crown Jewel longarm machine from Baby Lock allows you to create gorgeous and intricate quilting with an astonishingly smooth stitch for the utmost creative freedom and precision. With a generous 18” throat space, you can achieve beautiful and professional-quality quilting with ease. Enjoy a wider workspace, a height of 8.25” and a speed of 1,800 spm to quickly finish quilts of any size from crib to king. The built-in Precision Stitch Regulator provides the smoothest stitching, even during pauses. Effortlessly control every aspect of your quilt with large, push button controls on the front and back handles. Baby Lock is the first home sewing machine company to bring the joy of longarm quilting directly to your home. Enjoy the satisfaction of adding the final touch with the Crown Jewel.

For the love of sewing.

18” Workspace

As a true longarm machine, the Crown Jewel’s larger workspace allows you to stitch freely without worrying about limitations.

Back and Front Handles

Effortlessly control the motion of the Crown Jewel from either end of the machine with the comfort gripped handles. Options are right at your fingertips with push button controls. Change the stitching speed, start and stop the Crown Jewel, or place the needle up or down with buttons directly built into the handles.

LCD Display

Set and easily read Stitch Control Features with the large, color LCD display on both ends of the machine. Change settings, lighting, and speed with minimal scrolling. If desired, set a preferred needle speed for the Manual Stitch Mode.

Built-In Stitch Regulator

Stitching has never been smoother than with the Crown Jewel. The Precision Stitch mode allows you to make hard pauses without interruption and regulates the selected stitch length.

The Cruise Stitch regulated mode allows the needle to immediately begin stitching at the precise speed chosen while regulating your stitch length.

Large “M” Class Bobbin

Enjoy less bobbin changes with the largest bobbins available in quilting (up to 40% more than a standard bobbin). Quilting is also more convenient with the high-speed rotary hook and a separate electric bobbin winder with variable speeds.

Optional Accessories

Pearl Frame - #BLQF

From its height-adjustable legs to the simple assembly and snap-in rail system, the Baby Lock Pearl Frame is the perfect accompaniment to the Crown Jewel. The work area is also adjustable—quilters can work with a 5 foot work space or increase it to 10 feet for larger projects. Add the

2’ extension table for even more length. Plus, the Pearl Frame is made entirely of solid-steel tubing, providing maximum support for all quilting projects. With a stable, sizable frame, quilters can focus on creating precise, beautiful stitches and finishing quilts at a professional level.

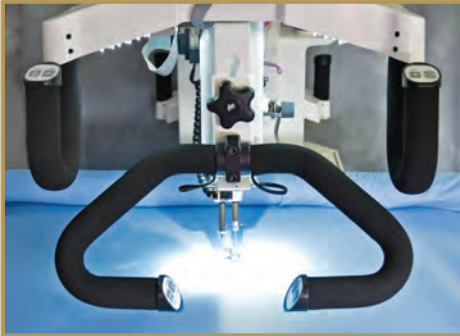

Majestic Frame - #GMF

By pairing the Crown Jewel with a Grace quilting frame like the Majestic Frame, you can create quilts of any size – from crib to king. Simply place the Crown Jewel on the track system, add batting, backing and a top piece, and you’re ready to quilt! The frame can be adjusted to different sizes,

with an optional extension available for even more length. Quilt with incredible precision and ease, with room to explore all of your ideas.

Micro Handles - #BLJ18-MH

The Micro Handles are the perfect accessory for micro-stippling and close-up work. With fully-integrated, built-in buttons, these new comfort-grip handles allow you to work with precision and ease. They are adjustable front to back, as well as up and down, so you can place

the handles as close to the needle as you wish. Plus, illuminate all of your detailed stitching with the additional LED light.
