

Now your creativity can soar...

...like never before. The artista 730E.

Nothing Sews Like A Bernina. Nothing.
BERNINA®

...take flight

Sit down at the artista 730E and let your imagination find its wings.

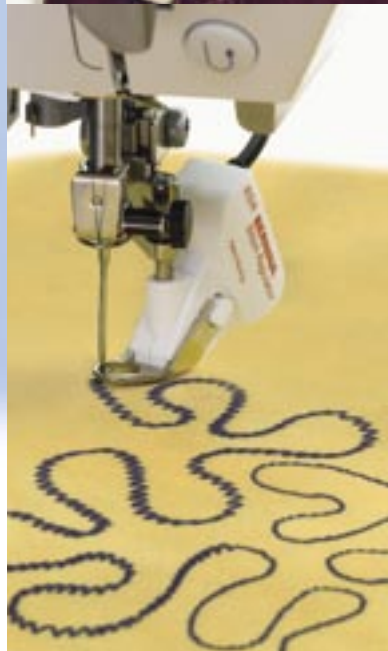

Sewing? Quilting? Embroidery? This is the best of the best of the best. The finest of sewing and embroidery systems, the artista 730E has every feature you can imagine to turn your ideas into pieces that make you proud.

Only the artista 730E has a Microsoft® Windows® Powered operating system built in. So, at the touch of a finger to the big, bright centrally located color screen, you can get on-screen help and graphic tutorials. You can import and export embroidery designs and access the myartista portal, a website exclusively for artista 730E and 200E owners. And much, much more.

Only the artista 730E comes with the revolutionary, patented* Bernina Stitch Regulator. It automatically regulates straight and zigzag stitches at variable lengths, so you create consistent free-motion stitching with complete confidence.

Only the artista 730E rescales both embroidery designs and alphabets by changing the stitch count, keeping details sharp and textures smooth.

Are you getting the feeling that the artista 730E truly soars above all others? It does. And Bernina creates these technological advances for one reason only: to help you express yourself more easily and creatively than ever before. But even with all the features and innovations we can describe here, it's hard to understand how wonderful the artista 730E really is until you sit down and sew.

Whatever you love to create, the artista 730E has more features to help you make it just the way you always wanted it.

Quilters have special demands, and the artista is designed to meet them. For instance, the exclusive Bernina Stitch Regulator turns free-motion stitching into creative play. It automatically regulates stitches at variable lengths, so you can create consistent, free-motion stitching the very first time you try it. You'll love it for making quilts, garments, home decorating projects and crafts, too.

Quilters need to keep both hands on the fabric for guiding and pivoting. So the Bernina Free Hand System lets you lift the presser foot and lower the feed dog with your knee. And, of course, Bernina power and precision lets you quilt through several layers easily and neatly.

The artista 730E is a sewer's dream—for garments, home dec projects or crafts. Imagine choosing from 855 stitches, all sewn with Swiss precision. Easily adjust stitch width and length, change needle position on any stitch, and save favorite or altered stitches — all at your finger tips!

And, especially for garment sewers, On-Screen Buttonhole Measuring is a favorite feature. Simply hold your button to the screen, use the knobs to adjust length and the artista sews perfect, repeatable buttonholes every time.

Embroidery. Oh, my! The artista embroidery module takes embroidery to an amazing level. You'll have more than 100 designs plus Bernina Editor Lite software included. You'll import designs straight from the web with your Bernina USB Stick. You'll combine designs, edit, add lettering and more right on the large touch screen in full color and detail. No other system rescales embroidery like the artista 730E, recalculating the number of stitches needed so your designs, and your alphabets, are perfect at any size.

Try it today. Let yourself soar.

Main Features—artista 730

Centrally Located Color Touch Screen

The extra-large touch screen displays all the vital information in each menu such as stitch width and length, suggested presser foot, feed dog and needle position. You can also adjust brightness and color.

Separate Bobbin-Winding Motor

Save time. Wind bobbins as you sew or embroider without having to interrupt your work.

Microsoft® Windows® Powered

The artista 730E joins the 200E as the world's only sewing machines with the Microsoft® Windows® Powered operating system. With the optional available modem, you can download designs directly from the myartista Internet portal. **A Bernina exclusive.**

Cool Fluorescent Light (CFL)

The exclusive, U-shaped bulb illuminates the entire stitching area. You'll clearly see both your project and the needle, increasing the ease and accuracy of your sewing. And the light is specially designed to stay cool for your comfort. **A Bernina exclusive.**

Automatic Thread Cutter

With the artista 730E, the thread is automatically cut after you finish embroidering a color in a motif. Needle and bobbin thread can be cut simultaneously at the touch of a button.

Favorite Function Button

Program it with your most frequently used function so you don't have to move your hands away from your work.

Setup Menu

Unique! Only Bernina gives you the option of changing default settings, operating elements, stitches and functions according to your own personal needs.

What else can you do on the extra-large touch screen?

Multifunction Knobs

The multifunction knobs make sewing easy by letting you smoothly adjust stitch length and width. For embroidery, you can infinitely scale, position and rotate designs. Also use these convenient knobs to move through the tutorial.

Touch Screen Sewing: Combi Mode

Functions are easily accessible and can be freely engaged on almost every stitch in the machine. Not only can you mirror-image and elongate your stitches, you can view your changes easily on the touch screen. **A Bernina exclusive.**

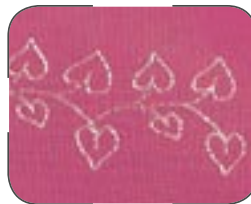

Precise Directional Movement

16-directional stitching with two stitch options, 4-directional with 8 stitch options, plus sideways motion.

Touch Screen Sewing: On-Screen Buttonhole Measurement

Just hold a button to the screen, turn a knob and the artista automatically sews a perfectly sized buttonhole. Make several different buttonhole styles automatically. The artista will remember them for you—even after you turn off your machine.

Touch Screen Sewing: Decorative Stitches

Select from an extensive library of inspiring decorative stitches to embellish your home decorating, garment, quilting and craft projects.

Free Hand System (FHS)

A Bernina innovation, the knee-operated lever raises the presser foot and lowers the feed dog so you can keep your hands on the fabric while guiding and pivoting. It saves precious sewing time.

USB Connection and USB Sticks

Bernina uses the latest USB technology for rapid and direct communication between your artista and your PC. The included Bernina USB Stick contains a wealth of designs. You can also purchase blank Bernina Personal Design Sticks for storing and importing embroidery designs. Licensed Design Collections are available on USB Sticks from OESD.

Alphabets and Monograms

Create with three alphabets in upper and lower case, and monograms in three different sizes. Only Bernina combines alphabets and decorative stitches. Give your sewing projects your own individual stamp, and even make labels.

Discover the exciting world of artista embroidery.

Embroidery Module with Editor Lite Included

This easy-to-attach embroidery module gives you access to the wonderful world of embroidery. The large embroidery field (255 mm x 145 mm, approximately 10" x 5.7") gives your creative projects the space they deserve. Additional embroidery hoops, including the Mega-Hoop, are also available.

BERNINA Editor Lite Software

Bernina Editor Lite software is included, allowing you to add lettering, change colors, mirror-image and more. Express your creativity with 65 additional designs and 5 new fonts. You can also upgrade to more powerful versions of Bernina software to explore all your designing possibilities.

Included Embroidery Designs

The artista 730 comes with more than 100 embroidery designs, including floral, quilting and children's designs. The ability to freely combine and edit designs and alphabets on screen will give your creativity wings.

On-Screen Tutorial

Need help with hoop selection, threading the bobbin case, hooping the fabric, combining designs, using stabilizers or free-arm adapters? Graphic tutorials, instructions and tips are easy to view. Sewing help, too.

Total Information, Intuitive Control

All your important embroidery information is in view on the touch screen, including design size, number of stitches, thread colors and embroidery time. Plus rotate, mirror, scale and zoom—all design modification functions.

Bernina Embroidery Software

When you're ready to expand beyond Editor Lite, move up to the latest version of Bernina Embroidery software. With your PC and a sprinkle of imagination, there's no limit to what you can create. Comes in three levels: Editor, AutoDesigner and Designer Plus.

Explorations Software

It's the perfect companion to Bernina Embroidery software. This project-based software lets you see your entire project on the screen, complete with fabrics, before you ever make a stitch. Use the Color Wheel to instantly change colors, combine designs without worry by using the "remove overlaps" tool, and much more!

Change the size. Keep the beauty.

Only the Bernina artista 730E rescales both embroidery motifs and alphabets for the gorgeous results you expect every time. Whether enlarging or reducing designs, Bernina recalculates the number of stitches so they don't pile up or leave gaps. Just look.

Master free-motion stitching in minutes.

Patented* Bernina Stitch Regulator (BSR)

The revolutionary Bernina Stitch Regulator turns free-motion stitching into creative play. Only BSR regulates straight and zigzag stitches at variable lengths, so you can create consistent free-motion stitching with complete confidence. Create gorgeously stitched designs like those on the right with amazing ease. You'll love it for making quilts, garments, home decorating projects and crafts, too!

Created by Kayla Kennington

An entire system that expands as you expand your creativity.

Additional USB Sticks (optional)

Create and store your own design collections with Bernina Personal Design Sticks. Or, explore thousands of licensed designs available on USB Sticks from OESD.

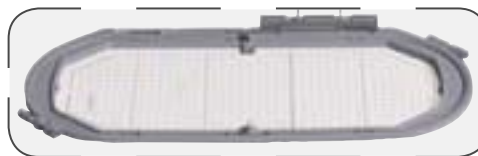

Bernina Suitcase System (optional)

These sturdy suitcases attach to put your entire system on wheels. The main suitcase holds most sewing machines, and the top attachment is for your embroidery module. Sold separately or as a set.

Accessory Boxes

Store bobbins, needles, presser feet and other sewing tools in these handy accessory boxes. Lots of accessories are included, and there's plenty of room for more.

Mega Hoop (optional)

This three-position embroidery hoop is specially designed and engineered for stitching extra large designs—up to 150 mm x 400 mm.

Precision Presser Feet and Accessories

The artista 730E comes with ten presser feet, but that's just the beginning. Bernina offers more than 75 feet and accessories to expand your creative options.

The artista 730E is just an example of the innovative thinking Bernina has been bringing to the sewing world for well over a century. Since 1893, our machines have been revolutionizing the way we sew. As always, Bernina features the finest engineering and Swiss-precision stitching available—machines that are truly a joy to sew on. So, stop by your Bernina Dealer today. They are there not only to help you select the right machine, but also to help you discover your own creative wings.

Visit www.berninausa.com for complete product information, creative projects and sewing tips.

Nothing Sews Like A Bernina. Nothing.
BERNINA®

No one supports the creative sewer like a Bernina Dealer.

Bernina of America gives a donation to the Susan G. Koman Breast Cancer Foundation with every artista purchase.

Butterflies by Nina McVeigh and Marlis Bennett.
