# Designer's Gallery®

Lets embroidery designs  
work for you!

Trying to add text? Ready to resize? No matter what you'd like to achieve with your next design, you'll find a member of the Designer's Gallery software family that's ready to help. From fixing puckered designs to organizing your basket of collections, you'll find a clear solution to any design issue. Discover the world of digitizing, or create unlimited designs with the world's first series of interactive design collections. Keep reading to learn about every member of the Designer's Gallery family, and you'll soon discover that every embroidery design can work for you.

## Visit The New DesignersGallerySoftware.com!

Every member of the Designer's Gallery family can be conveniently purchased at **[www.designersgallerysoftware.com](http://www.designersgallerysoftware.com)**. What's more, you'll find free projects that you can create with your new software, and new projects are added every month!

At **[www.designersgallerysoftware.com](http://www.designersgallerysoftware.com)**, you'll find more than information... enjoy video demonstrations, industry-leading customer support, the latest software updates and even online classes to help you get the most out of your software.

While you're there, don't forget to sign up for the Embroider-E online newsletter for monthly projects, advice columns, coupons for software and notions purchases, and even insightful articles from the creator of Designer's Gallery, Brian Bailie. And, follow Designer's Gallery on Facebook and Twitter for all the latest news.

# MasterWorks™ II

## No More Cookie Cutter Designs!

Finding more cookie cutter designs than the incredible designs you had in mind? With MasterWorks II digitizing software you can easily transform all your line-art and images into embroidery designs. Plus, select a fill stitch, add shapes, combine text and artwork, preview stitching sequence and more, all without ever changing screens. Discover digitizing power that lets you create perfect embroidery every time.

### Complete Design Digitizing

Effortlessly turn scanned images, vector artwork and more into beautiful embroidery designs. Choose from over 500 standard, fancy, wave, or gradient fills or create your own. Add appliqué, stippling, fill effects, columns and more. Customize designs with editing tools, built-in shapes, 130 fonts or any True Type® font from your PC.

View all design work on one screen, and see changes immediately with instant stitch application. And, with four timesaving wizards for Auto-Artwork, Auto-Digitizing, Cross-Stitch and Photo-Stitch, you'll never get lost!

### Additional Features

- Find the perfect "recipe" for pull compensation, density and underlay.
- Edit designs in Zoom mode with the Navigator window.
- Watch your design sew onscreen with the Sewing Simulator
- Scan and place fabric inside a design for an exact preview.
- Includes 600 royalty free images
- Works on multiple computers with the USB dongle

For a FREE demo or to purchase visit: [www.designersgallerysoftware.com](http://www.designersgallerysoftware.com)

# MasterWorks™ lite

## Are You Ready to Take the First Step?

You've thought about digitizing clip art into embroidery designs, and now you can with MasterWorks Lite. MasterWorks Lite digitizing software makes digitizing work for you with step-by-step instructions and all of your tools on one screen. Soon, you'll be able to go wherever your imagination takes you, with perfect embroidery every time.

### Digitizing for Beginners

Give designs an artistic touch with 194 built-in fills including standard, fancy, motif and gradient fills. Easily bring in a variety of image formats (.jpg, .eps, .tiff, .bmp, .wmf, .pcx, .pct, .tga). You can also use the backdrop tool to trace or copy designs with increased flexibility.

See every option on one page for easy access and quick assessment. Use realistic 3D, zoom, pan and measuring tools for the most accurate previews of your design. Watch your design "sew out" onscreen with the Sewing Simulator to instantly spot tricky or troublesome areas.

### Additional Features

- The auto-digitizing wizard provides step-by-step instructions to convert any image into an embroidery design
- Instantly digitize with 37 custom shapes and 30 built-in clip-art images
- Use the wide selection of editing tools to change all or part of a design - cut, copy, paste, flip, rotate, re-size, merge designs and more

For a FREE demo or to purchase visit: [www.designersgallerysoftware.com](http://www.designersgallerysoftware.com)

# Studio™ III

## Where Did I Put That Design?

Spend more time embroidering and less time searching. Studio III remembers where you save your designs even when you don't. Whether it's on your hard drive, a CD or thumb drive, this design library software let's you customize catalogs. Plus, enjoy color sorting options for perfect embroidery every time.

**Organize** - Create a personalized catalog to sort, cross-reference and find all of your embroidery designs. Create categories and sub-categories using all media including thumb drives.

**Color Control** - Use the built-in color control features to add or minimize color stops. The on-screen sewing simulator shows one color or all the colors in a design.

**Convert** - Instantly convert designs - individually or by the hundreds - to and from most embroidery formats.

## StudioPlus™

is also available for cataloging and design management options.

### Additional Features

- See and access all computer files from the main screen for effortless design browsing
- Convert all thread colors in a design to your favorite brand
- View designs in 3D for an accurate preview of a design sew out
- Easily copy, paste, rotate and mirror any design with built-in Studio Layout features
- Use the Project Advisor to get the information you need to make every project a success

For a FREE demo or to purchase visit: [www.designersgallerysoftware.com](http://www.designersgallerysoftware.com)

# CustomWorks™ II

## How far can you go with your Embroidery Design Library?

Create an endless amount of unique designs from your existing library with the creative freedom of CustomWorks II software. CustomWorks II makes designs work for you with powerful tools that allow you to edit and combine existing designs flawlessly. With so many creative options, you'll be amazed at the places your embroidery will take you, with perfect embroidery every time.

**Edit** - Easily modify existing designs using advanced editing tools. Make sweeping or fine changes to customize any design in your collection.

**Merge** - Merge and combine multiple designs to make one-of-a-kind projects. Use the multi-page interface to work across multiple design pages at once.

**Color Sort** - Minimize the number of thread changes by using the built-in color management features to add or remove color stops.

### Additional Features

- Insert, delete or move stitches to get the best results possible
- Accurately place designs in your hoop using easy-to-use alignment and rotation tools
- Resize single designs, parts of a design or merged designs as a group
- Arrange duplicated designs into a circular "carousel" pattern
- Scatter duplicated designs for a unique pattern effect

For a FREE demo or to purchase visit: [www.designersgallerysoftware.com](http://www.designersgallerysoftware.com)

# DensityWorks™

## Is Your Design Puckered?

If your embroidery is puckering or causing your needle to break, it's probably the density of your design. DensityWorks software automatically adjusts the amount of stitches in each design for perfect embroidery every time.

**Adjust Density** - Analyze and adjust the density of any embroidery design for perfect sewing. Easily adjust satin stitches, small fill stitches and fill density.

**Reduce Stitches** - Remove hidden stitches from designs, saving time and eliminating needle and thread breaks.

### Additional Features

- Quickly alternate between the original and adjusted designs for comparison as you work
- Choose 3-D, Jump or Wireline views for flexibility in managing adjustments to your designs
- Use the project advisor to get the information you need to make every project a success
- Conserve thread by eliminating unnecessary stitches

For a FREE demo or to purchase visit: [www.designersgallerysoftware.com](http://www.designersgallerysoftware.com)

# Size Works™

Too Big? Too Small? Just Right!

Make your designs and your project ideas a perfect fit. SizeWorks software allows you to enlarge or reduce the size of any designs – all while maintaining a perfect stitch count. SizeWorks lets designs work for projects of any size for perfect embroidery every time.

**Enlarge** - Instantly enlarge embroidery designs by up to 200%. Resize designs to the maximum limit of your hoop with a single click.

**Reduce** - Easily shrink designs by up to 50% while maintaining the correct proportions and density adjustment.

**Recalculate** - Stitches are automatically recalculated as designs are resized to eliminate holes in the stitching.

## Additional Features

- Retain decorative fill patterns to ensure the same stitch quality, no matter what the size
- Maximize your machine's embroidery area by automatically sizing designs to fit the hoop with a single click
- Mirror designs horizontally or vertically

For a FREE demo or to purchase visit: [www.designersgallerysoftware.com](http://www.designersgallerysoftware.com)

# HoopWorks™

## Not Enough Hoop?

If your design is larger than your hoop, you'll find help with HoopWorks - designs of every size will always work for you. Easily split any design and seamlessly recombine it with pinpoint accuracy for perfect embroidery every time.

**Split** - Instantly split large embroidery designs to fit into any hoop on virtually any machine.

**Align** - Automatically align split designs to the best position for optimal sewing results.

**Recombine** - For extra precision when recombining designs, easily add basting stitches.

### Additional Features

- View each hoop position individually or see all design positions at once
- Take the guess work out of design splitting by choosing your favorite hoop
- Automatically resizes oversized designs by reducing them up to 35% to fit into most multi-position hoops

For a FREE demo or to purchase visit: [www.designersgallerysoftware.com](http://www.designersgallerysoftware.com)

# MonogramWorks™

Don't Just Make Your Mark -  
Make It Remarkable!

Make every monogram remarkable with MonogramWorks. Create single letter monograms or a full line of text. With unbelievable editing features and hundreds of font and embellishment combinations, every monogram can uniquely reflect the person it represents. MonogramWorks automatically removes hidden stitches, letting merged or resized designs work for you.

**Personalize** - There's a font for everyone with over 40 selections, including fashionable appliqué, gorgeous multi-color, 6mm and floral.

**Accent** - Make each monogram stand out by adorning them with over 70 embellishments. Choose from appliqué frames, open frames, and other decorative designs! Plus, bring in any design from your collection!

## Additional Features

- Edit each monogram to your liking with italics, mirrored lettering, rotating letters and more!
- Flawless results are effortless with stitch control features that automatically adjust density and remove hidden stitches overlapping letters
- Instantly transform the shape, position or style of any monogram with 14 Quick Styles
- Enjoy hundreds of new options with additional font and frame packs

For a FREE demo or to purchase visit: [www.designersgallerysoftware.com](http://www.designersgallerysoftware.com)

# LetterWorks™ III

It's Not Always What You Say,  
It's How You Say It!

You create the sentiment, LetterWorks III software will add the style. Express yourself with multi-line text, 165 fonts and the ability to import True Type Fonts from your PC. LetterWorks III includes plenty of options to make every gift from the heart.

**Personalize** - Size, rotate, italicize and skew text to make every design individualized and unique.

**Enhanced Lettering** - Choose from over 150 professionally digitized fonts and monograms, including high quality 4mm - 10mm fonts for labels or smaller projects.

## Additional Features

- Let your font library grow with the ability to use TrueType® fonts loaded on your PC
- Effortlessly contour your lettering around other design elements with circular text and text to path orientation
- Ensure your embroidery text is spelled perfectly with spell check
- Enjoy complete control of properties such as pull compensation, underlay and sewing order

For a FREE demo or to purchase visit: [www.designersgallerysoftware.com](http://www.designersgallerysoftware.com)

# QuiltWorks™ II

## Can You Achieve Perfect Quilting with Just a Push of a Button?

Turn the time spent quilting into time for creating. QuiltWorks II software creates perfect quilting motifs from Redwork to stippling and embroiders them in the hoop. Combine timeless art with the technology and convenience of your embroidery machine.

**Quilt** - Add traditional quilting styles to all of your projects - create Sashiko, Redwork patterns, stippling and more.

**Embroider** - Easily convert quilting designs into embroidery or use the outline wizard as a guide to change images into embroidery designs. There's no need to use free-motion techniques, so all of your motifs will be precise.

**Appliqué** - Automatically create positioning, tack down and appliqué stitches to change all or part of your motif into an appliqué pattern.

### Additional Features

- Get started right away with over 50 built-in quilting style images
- Choose from over 200 stitch styles, including candlewicking and blackwork
- Effortlessly create designs using the Pencil, Pen and Bezier tools

For a FREE demo or to purchase visit: [www.designersgallerysoftware.com](http://www.designersgallerysoftware.com)

# interactive™ Designs

## Embroidery Design Collections that come alive!

Stretch your imagination onscreen with the world's first series of interactive designs. The Interactive Embroidery Series lets designs work for you with interactive controls that allow you to change the size, color, shape, stitches and other design elements. Interactive Embroidery collections give you the ability to create thousands of unique designs, plus merge with each other for millions of embroidery design options.

### Dining in Lace

Impress your dinner guests by creating an atmosphere they'll never forget. Embroider an entire lace table setting - coasters, napkin rings and corners, centerpieces, wine duvets, tablecloth borders, candle wraps and more!

### Christmas Traditions

Make beautiful holiday gifts and decorations. Embroider free-standing reindeer, a fabric-free alphabet, Santa's sleigh, ornament covers, and thousands of snowflakes as unique as the real thing.

### Simply Trims

Add some flair to all your projects. Choose from an assortment of styles for virtually any kind of trim you would like to create, including free-standing charms, heirloom, braid, loop, soutache and fringe trims. You can even create a fringe-style alphabet.

### Floral Accents

The name is only the beginning of what you can create - Customized oval accents, borders, frames and more. Embellish garments and linens, personalize quilt labels and design adorable vine frames for scrapbooks and photos.

## Decorative Quilting

Personalizing your quilts has never been easier. Discover thousands of ways to embroider quilt blocks, corners, borders and labels. Add embellishments to garments, or give a quilter's touch to all your embroidery projects.

## Playtime Appliqué

These adorable appliqué designs are as fun to create as they are to look at. Choose from a variety of cuddly animals and pose them with interactive controls. Add block letters to create personalized projects for any nursery or playroom.

## Décor Interactives

Compliment your style by creating embellishments in a variety of prints and colors. Combine interactive shapes, wallpaper and inner designs to embroider customized home décor and couture fashion!

## Celtic Interactives

Travel back in time with Celtic Interactives - the unique embroidery design collection that lets you customize designs with the click of a mouse. Combine interactive knots, crosses, borders and text with beautiful intertwining textures and detail.

## Gifts Galore Interactives

Discover 12 easy in-the-hoop project templates with unlimited options for customization, featuring elements from other Interactive collections. You won't believe how many gifts you can make in no time at all.

## Sashiko Interactives

Give your embroidery the unique, hand-stitched look of Sashiko. This unique design collection allows you to create an endless amount of traditional Sashiko designs, frames, borders and more - all with an exclusive Sashiko stitch.

# Designer's Gallery will help you... every stitch of the way.
