

First Aid Kit

"Disasters happen anytime and anywhere...and when disaster strikes, you may not have much time to respond. A highway spill of hazardous material could mean instant evacuation. A winter storm could confine your family at home. An earthquake, flood, tornado or any other disaster could cut off basic services---gas, water electricity and telephone..for days or weeks. "After a disaster, local officials and relief workers will be on the scene, but they cannot reach everyone immediately. You could get help in hours or it may take days." Would your family be prepared to cope with the emergency until help arrives?"

We have a limited number of First Aid Kits available at the Emergency Service 442 W Forest. These will be sold on the first come first served basis. Citizen \$37.19 Police \$63.70....

Want to build your own kit????
