Dear Chamber Member,

The Brigham City Area Chamber of Commerce is writing to encourage you to help get the word out about contacting our federal senators and representative to reverse President Obama's decision to cancel the Constellation program. This proposal from the President has a direct impact on our community as well as the nation. There are over 30,000 jobs nationwide that will be impacted and over 2,000 in the state of Utah and Box Elder County. ATK is a critical part of the economic base of our county. Any loss of jobs impacts the amount of disposable income that is filtered through the local businesses, so the Chamber is trying to help to save the many jobs by encouraging you, your employees, and your customers to contact Senator Hatch, Senator Bennett, and Representative Bishop.

The Chamber will be emailing out a form letter that will be attached as a word document that you will be able to change that may be sent to our Senators and Representative, however we would like to use the form letter only as a base of a letter sent. Please personalize and change it to reflect your own thoughts and feelings. Also please place on your business letterhead to send it and definitely encourage your customers and employees to send personal letters as well.

Below are the addresses of the President and our Senators and Representative in Washington DC if you don't want to use our form letter please draft a letter and get it sent today.
