

Concentrated Carpet & Upholstery Shampoo™

Crystallizing Formula For Easy Vacuuming

Concentrated Carpet & Upholstery Shampoo is a blend of synthetic detergents, emulsifiers, builders, solvents and non-fluorescent brighteners. This product generates thick stable foam that produces excellent carpet cleaning results. Concentrated Carpet & Upholstery Shampoo features a gentle dry-foaming action that is powerful enough to penetrate and lift stains and soils without soaking carpets and fabrics.

- **Triple Surfactant Blend**- Produces rich stable foam that is effective in pulling deeply imbedded soils out of the carpet fiber. The foaming action floats the carpet soil to the surface. Vacuuming easily removes the soil capturing crystals that form as the foam dries.
- **Concentrated** - Because of the super concentration of surfactants and builders this product is very economical to use. One gallon will clean up to 9,600 square feet of carpeting, depending on soil conditions.
- **Versatile** - Used with outstanding results in all types of rotary foam carpet machines. Effective when applied by hand with a brush or sponge mop. Safe dry foam action makes this product ideal for use in cleaning upholstery.
- **Solvent Action** - Reduces the surface tension of hydrophobic soils such as grease and oil. This allows for easy restoration of traffic lanes laden with food soils.
- **Safe** - Mild foaming action makes this product safe for use on any rug or fabric that is water safe. Use it on all types of carpeting including "new generation" stain-resist carpets.
- **Soil Retardant Formula** - Eliminates sticky soil attracting residues.
- **Brighteners** - Non-fluorescent brighteners restore faded carpet colors to their original color.
- **Convenient Packaging** - Available in cases of 12 quarts, 4 gallons, and 5 gallon pails

Technical Data

Appearance	Clear, viscous , green liquid
Fragrance	Lavender
pH Concentrate	10.0 +/- 0.50
pH (1% dilution)	7.0 +/- 0.5
Solubility	Completely soluble in water
Specific Gravity	1.021
Flammability	None
Biodegradability	Complete
Viscosity	>100 Centistokes
Freeze Thaw Stability	Protect from freezing
Shelf Life	Guaranteed one year
