

BABY LOCK SERGERS

will change the way you serge forever.

FOR THE LOVE OF SEWING

EVOLVE

IMAGINE WAVE

IMAGINE

IT STARTED WITH A SIMPLE IDEA...

In 1964, several engineers and middle managers at a Japanese industrial company believed that they could redesign the industrial serger they were currently manufacturing to be smaller and lighter. Their company rejected the concept, but the team was so committed to their idea that they quit their job and formed their own company.

After three years of research, working prototypes and a battery of tests, they created a “baby” serger for home sewers that was capable of producing an overlock stitch. This was the birth of a machine called Baby Lock. For the first time, home sewers could create garments and other projects with a finished, professional look.

Today, you’ll find a variety of stitches and easy threading options on every Baby Lock serger, as well as exclusive features that make Baby Lock sergers stand out from the rest. The patented Jet-Air Threading™ is by far the easiest way to thread a serger. And the patented Wave Stitch – a beautiful and unique stitch exclusive to Baby Lock – is available on two of our sergers, the Evolve and the Imagine Wave.

Baby Lock is proud to have brought the first serger to the home market. It’s this heritage that moves us to continue bringing you the best serger technology coupled with ease of use. Whether you’re looking for your first serger or upgrading your current machine, you can count on Baby Lock to have a serger that’s right for you. You’ll see how Baby Lock will change the way you serge forever.

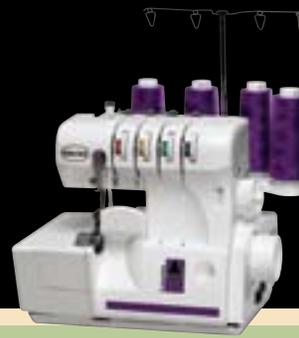

FOR THE LOVE OF SEWING

ECLIPSE DX

ECLIPSE SX

LAUREN

COVER STITCH

Baby Lock sergers can change the way you serge in more ways than you can imagine. Before I found Baby Lock, I used several different sergers for each episode of *Sewing With Nancy*. I needed a serger for each setting because it took too long to adjust settings in between takes. But after discovering Baby Lock sergers, I only needed one – changing the settings and thread was that quick and easy.

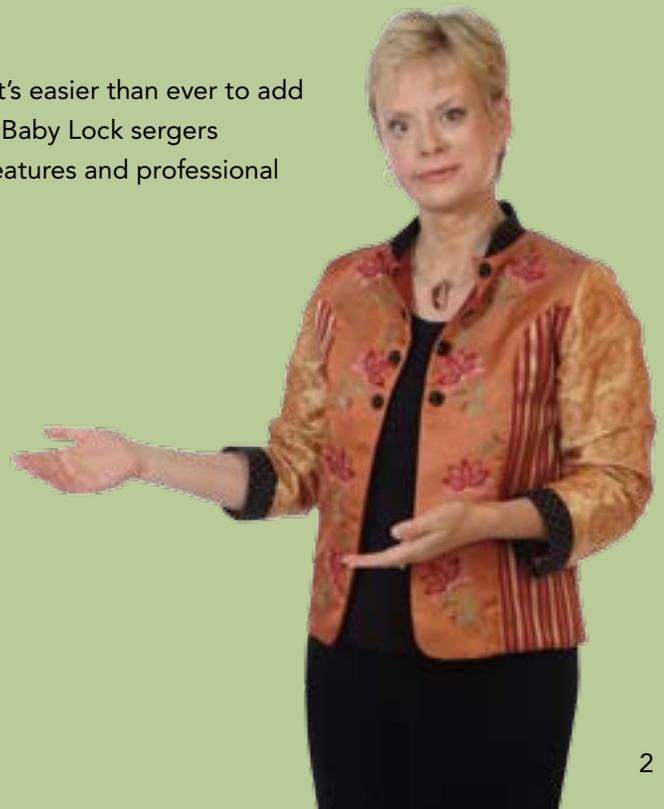

Since then, Baby Lock has never stopped amazing me with thoughtful, exclusive features. With just one touch of a button, the patented Jet-Air Threading™ sends thread through the machine with a “Whoosh!” – you simply must see this feature to believe it. And with the Automatic Thread Delivery System, I can thread my machine in any order and I never have to adjust the tension.

Baby Lock sergers have impressed me with not only their convenience, but their results. The exclusive Wave Stitch creates an edge that is truly beautiful and unique. And the Evolve uses up to 8 threads at a time for stunning creations (and it’s still a breeze to thread).

I love the finished look that sergers bring to my projects, and now it’s easier than ever to add decorative stitching, interesting textures, flawless seams and more. Baby Lock sergers have changed the way I serge forever - and with their easy-to-use features and professional results, they’re sure to change the way that you serge, too.

Nancy Zieman

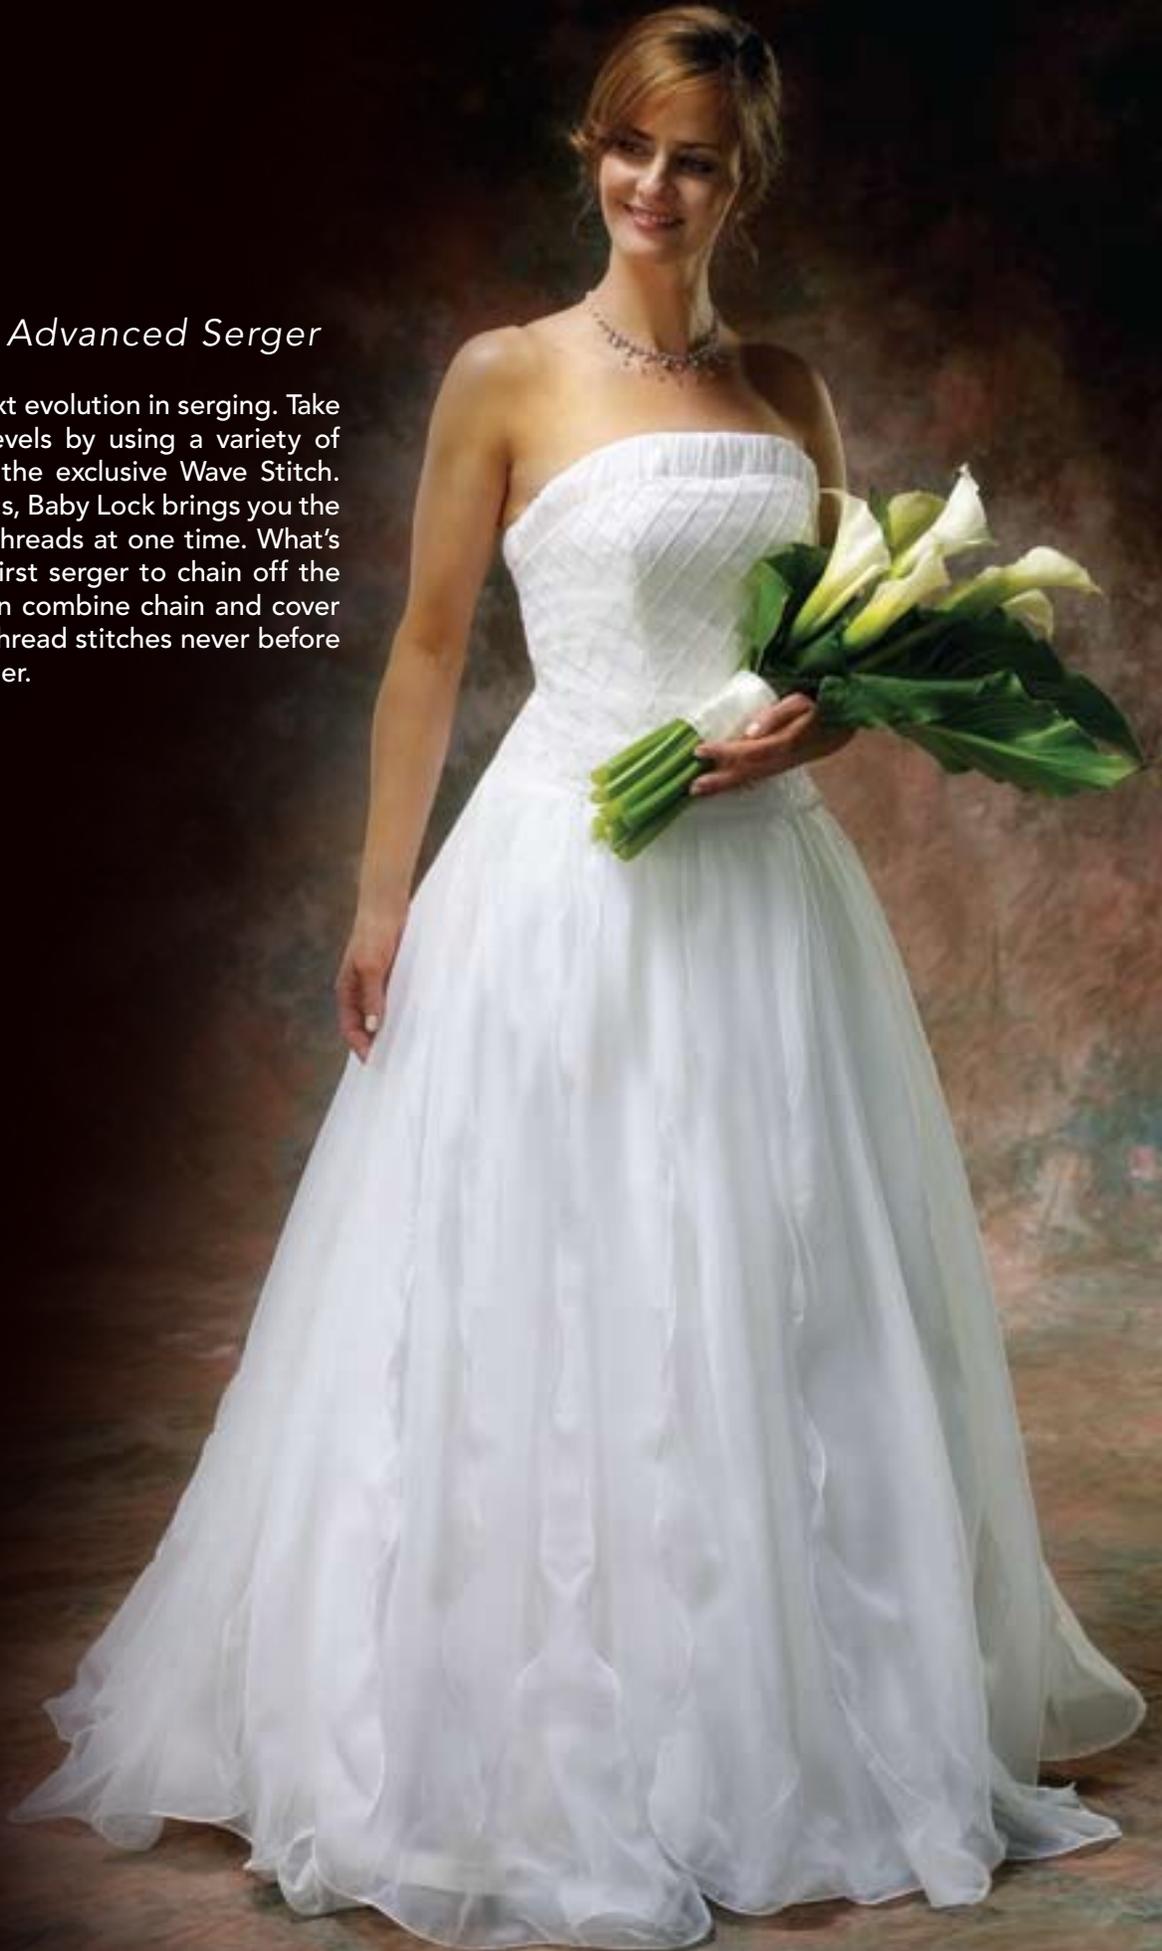

PBS Host of “Sewing With Nancy”

EVOLVE

The World's Most Advanced Serger

The Evolve is truly the next evolution in serging. Take your creativity to new levels by using a variety of stitch options, including the exclusive Wave Stitch. Through advanced patents, Baby Lock brings you the first serger to use eight threads at one time. What's more, the Evolve is the first serger to chain off the cover stitch. You can even combine chain and cover stitches to form up to 8-thread stitches never before seen on a household serger.

Exclusive Jet-Air Threading

Jet-Air Threading threads your serger with the touch of a button. There are no thread guides or struggling, giving you more time to serge away!

Automatic Thread Delivery (ATD)

A balanced stitch is vital, especially for projects with multiple fabrics. ATD controls the tension of threads, even on the sheerest fabrics — no manual adjustment necessary.

2 to 8 Thread Serging

Open up a world of new options with each stitch, from the tiniest rolled hem to an 8-thread Wave Stitch.

Chain Stitch Options

Whether you need a single, twin or triple cover hem, the Evolve makes chain stitching and cover hemming a breeze.

Full-Featured Differential Feed

Gather multiple layers of different types of fabric with complete and consistent gathering — no puckering.

FOR THE LOVE OF SEWING

Technology Features

- Instant Jet-Air Threading™
- Automatic Thread Delivery System
- Full-featured differential feed

Convenience Features

- Side thread cutter
- Electronic foot control
- Snap on, multi-purpose presser foot
- Built-in light
- Built-in accessory storage
- Built-in ribbon/tape guide
- Easy full-color threading chart
- Instructional DVD video

Advanced Serging Features

- Exclusive Wave Stitch and Reverse Wave Stitch for additional stitch options
- Serging options from 2 to 8 threads
- Chain/cover stitch functions include single, twin and triple cover stitch
- Overlock stitch functions to seam and encase fabric edges
- Flatlock stitch functions for seaming or decorative effects
- Heavy duty cutting system handles thick fabrics with ease
- Automatic rolled hem stitch functions create a professional finish
- Dial adjustable stitch width: 1.5 – 7.5mm, up to 16mm wide on Expressive Stitches
- Dial adjustable stitch length: 0 – 4mm
- Dial adjustable built-in rolled hem: 1 – 1.5mm
- Heavy-duty cutting system
- Side thread cutter
- 1,500 Stitches per minute

Other

- Warranty (25 yrs. limited, 10 yrs. parts, 5 yrs. electrical, 1 yr. labor)
- Optional Gold Standard Comprehensive Care Program
- Optional Workbook

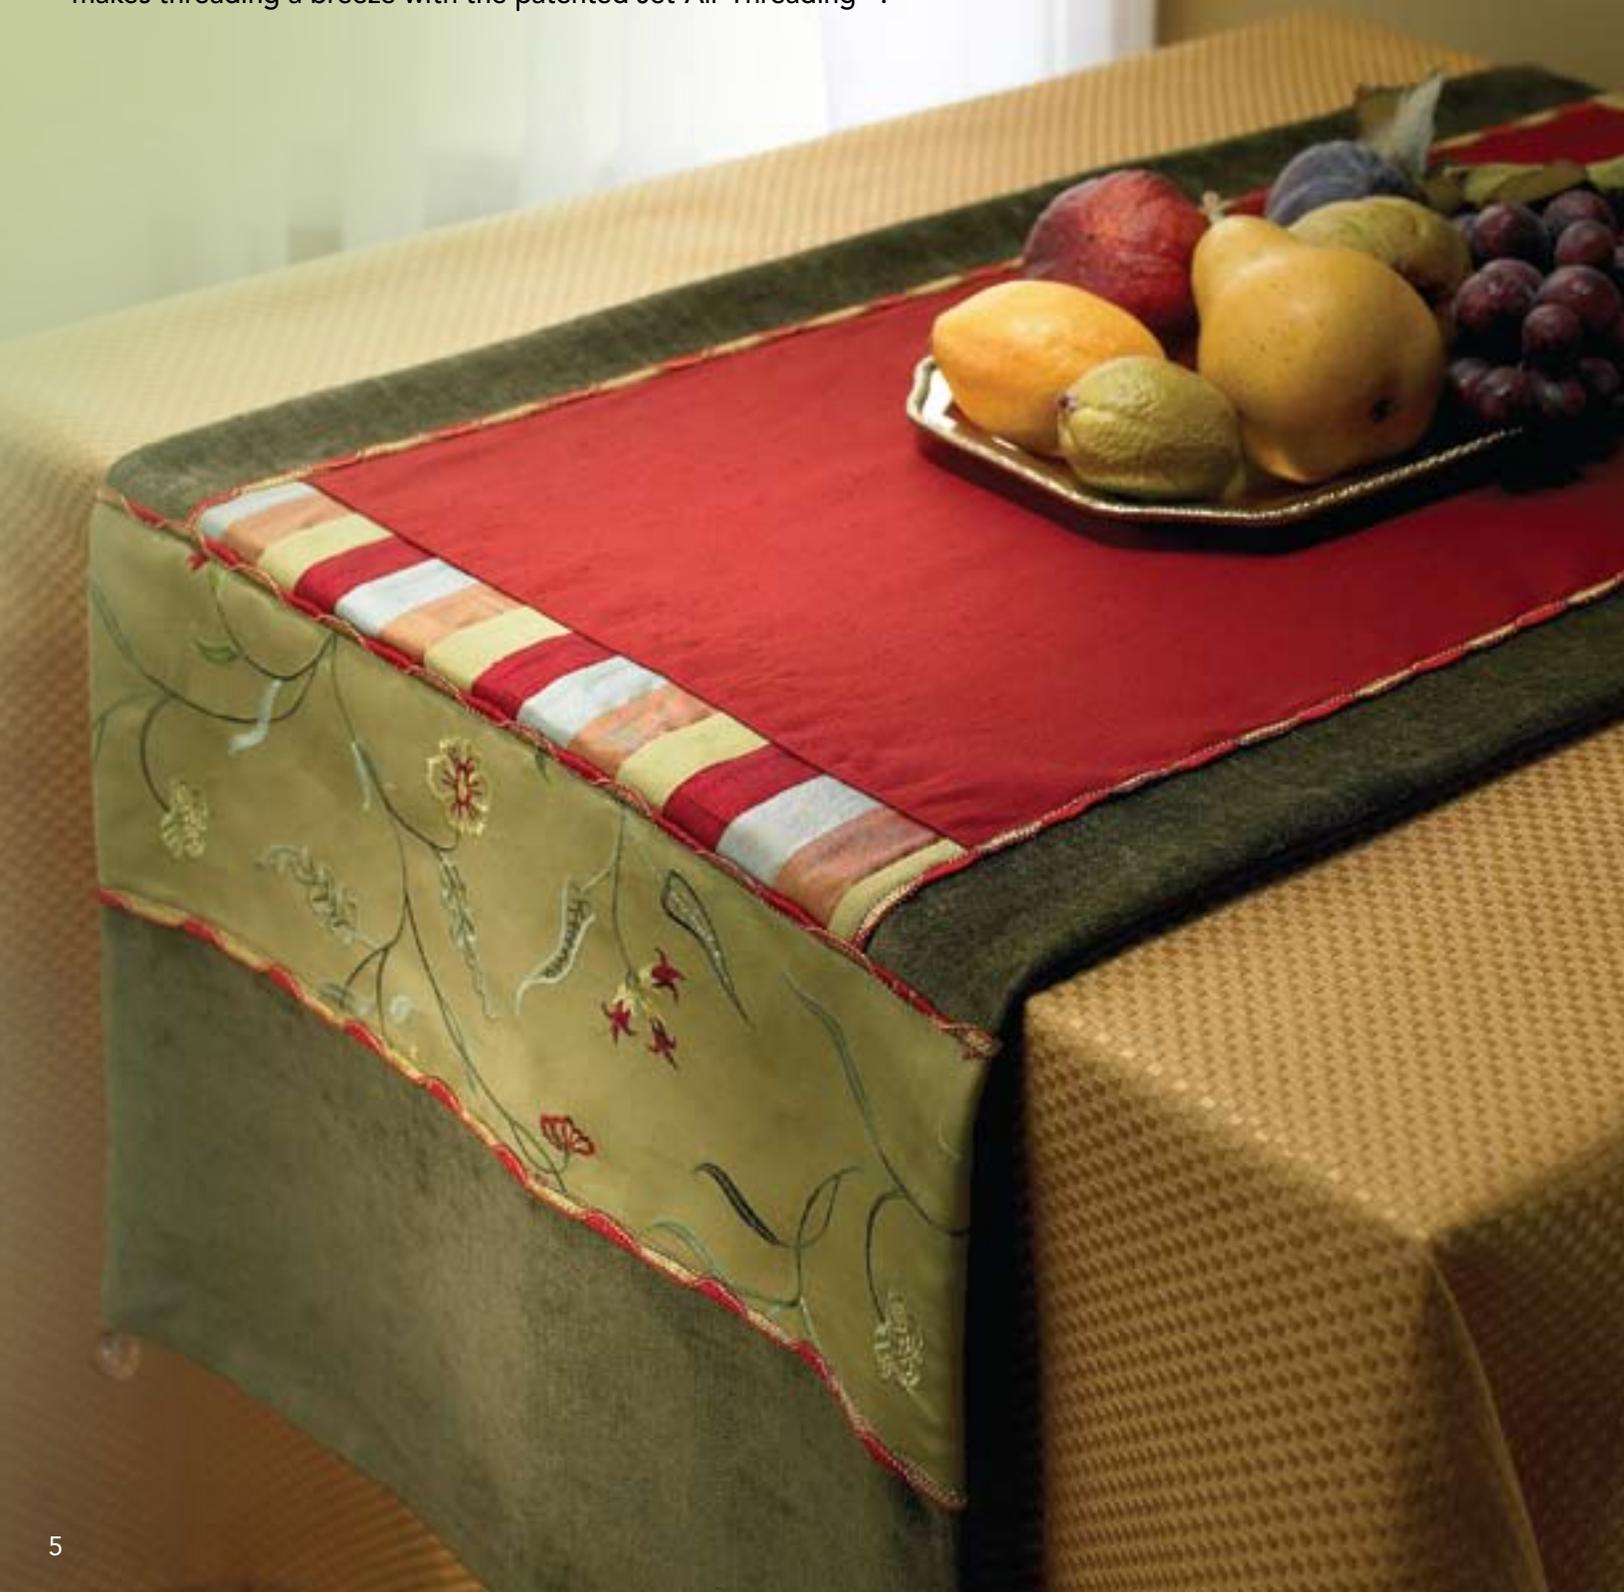

Optional Accessories

- Beading Foot (BLE8-BF)
- Belt Loop Binder 3/4" (BLE8-S12)
- Belt Loop Binder 1-1/2" (BLE8-S11)
- Blindhem Foot (BLE8-BLHF)
- Clear Foot (BLE8-CLF)
- Cording Foot (BLE8-CF)
- Double Fold Bias Binder 28mm (BLE8-S3)
- Double Fold Bias Binder 36mm (BLE8-S2)
- Elastic Foot (BLE8-EF)
- Elastic Gatherer 7.5mm (BLE8-EG7)
- Elastic Gatherer 10mm (BLE8-EG10)
- Elastic Gatherer 13mm (BLE8-EG13)
- Fabric Guide (BLE8-FG)
- Gathering Guide (BLE8-GG)
- Lace Applicator (BLE8-LF)
- Pintuck Foot with Guide (BLE8-PTF)
- Plain Hemmer 1/4" (BLE8-S7)
- Plain Hemmer 1/2" (BLE8-S6)
- Ruffling Foot (BLE8-RF)
- Single Downturn Feller 1/4" (BLE8-S10)
- Single Downturn Feller 5/8" (BLE8-S8)
- Single Downturn Feller 1" (BLE8-S9)
- Single Fold Bias Binder 28mm (BLE8-S4)
- Single Fold Bias Binder 40mm (BLE8-S5)

IMAGINE WAVE

Artistically Advanced Wave Serger

Imagine what you could create with a stitch unlike any other? Look no further than the Imagine Wave, the innovative serger that includes all of the unbelievable convenient features of the Imagine, plus the exclusive Wave Stitch found on the Evolve. The Imagine Wave also makes threading a breeze with the patented Jet-Air Threading™.

Exclusive Wave Stitch

The Wave Stitch is truly unique, and you can customize your projects even further with different stitch widths or thread color combinations.

Exclusive Jet-Air Threading™

Jet-Air Threading threads your serger with the touch of a button. There are no thread guides or struggling, giving you more time to serge away!

Automatic Thread Delivery System

ATD delivers an even, balanced stitch on any type of fabric, making it perfect for piecing even complicated fabrics like velvet.

Advanced Knife System

Piecing and other projects that require 1/4" seams can easily be achieved with this system, which cuts all weights of fabric smoothly and precisely.

4/3/2 Thread Serging

Add versatility to any project with a variety of thread options. Switch back and forth easily with the simple turn of a dial.

Technology Features

- Instant Jet-Air Threading™
- Automatic Thread Delivery System for no tensions
- Full-featured differential feed:
 - 2 to 1 Ratio – gathering
 - 3 to 4 Ratio – stretching
 - 4/3/2 Thread serging

Convenience Features

- Built-in needle threader
- Electronic foot control
- Snap on, multi-purpose presser foot
- Built-in accessory storage
- Built-in light
- Built-in ribbon/tape guide
- Instructional DVD

Advanced Serging Features

- Exclusive Wave Stitch for additional stitch options
- Rolled hemming with 3 threads
- Flatlock stitching with 2 or 3 threads
- Dial adjustable stitch width: 1.5 – 7.5mm
- Dial adjustable stitch length: 1 – 4mm
- Dial adjustable built-in rolled hem: 1 – 2mm
- Heavy-duty cutting system
- Precise, patented system makes for easier sewing around curves
- Side thread cutter
- 1,500 Stitches per minute

Other

- Needle system: HAX1SP
- Electronic drive system
- Weight: 16 pounds
- Warranty (25 yrs. limited, 10 yrs. parts, 5 yrs. electrical, 1 yr. labor)
- Optional Gold Standard Comprehensive Care Program
- Optional Workbook

Optional Accessories

- Beading Foot (BLE-BF)
- Blindhem Foot (BLE-BLHFS)
- Clear Foot (BLE3ATW-CLF)
- Cording Foot 3mm (BLE-CF3)
- Cording Foot 5mm (BLE-CF5)
- Elastic Foot (BLE-EF)
- Flat Sole Foot (BLE3ATW-FSF)
- Lace Applicator (BLE-LF)
- Ruffling Foot (BLE-RF)

14 EXCLUSIVE PATENTS

Since creating the first domestic serger in 1967, Baby Lock has developed and patented 14 exclusive features. Baby Lock continues to seek out and achieve new ways to make serging as enjoyable as possible for the home sewer with the same spirit of innovation and attention to quality and detail.

Jet-Air Threading™

Baby Lock's patented Jet-Air Threading technology takes away any struggles with serger threading. With one touch of a lever, thread is whisked through the tubular upper, lower, and chain stitch loopers. What's more, machines with Jet-Air Threading can be threaded in any order. The "whoosh" of this incredible innovation will be music to your ears.

Automatic Thread Delivery System

And it doesn't stop with threading... with Baby Lock's Exclusive Automatic Thread Delivery System, simply set the stitch you want and serge away. Having no tensions, these sergers will deliver a balanced stitch on any fabric with any type of thread. It even goes from one fabric to another without skipping.

Tubular Loopers

Imagine no exposed thread and no thread guides. Baby Lock has made that wish come true with tubular loopers that can be threaded in any order. This eliminates threading mistakes and protects the thread, giving you more freedom to serge than ever before!

Looper Drive System

This exclusive Looper Drive System prevents loopers from becoming misaligned or out of time, reducing the possibility of major looper damage. This protects your machine from needing repairs, allowing you to serge worry free!

Advanced Knife Driving & One-Way Clutch Systems

Baby Lock created a knife system with a larger cutting bite that allows thicker fabrics to be cut with ease and increased visibility.

FOR THE LOVE OF SEWING

Fabric Support System

Baby Lock's Jet-Air sergers include a Fabric Support System to keep stitches flat and balanced, no matter what speed, fabric or stitch you choose. The built-in stitch fingers actually move with the knife blade, adjusting the seam consecutively with the cutting width.

Vertical Needle Penetration

While most machines use slanted needles that push and damage fabric, Baby Lock's needles are set vertically and sew directly up and down. This exclusive feature protects your fabric and prevents needle deflection.

Chain/Cover Tension Disks

Baby Lock revolutionized the cover stitch with the Evolve, which functions include chain, cover, and triple cover stitches. All three cover needles are controlled by one tension dial, so you can save time with one simple adjustment.

Full Featured Differential Feed

Baby Lock took the differential feed mechanism to a new level by adding a single unit feed dog mechanism. This ensures stronger feeding as well as more consistent gathering on all fabrics.

Adjustable Stitch Length & Automatic Rolled Hem Dial

Stitch length can be easily adjusted on a Baby Lock serger using one dial. This dial includes an Automatic Rolled Hem setting that will retract the built-in stitch width finger for a rolled hem.

Needle Threading System

Baby Lock has put a lot of thought into threading a serger, but they haven't forgotten about the most important part - the needles. This system locks the needle threader in place for quick and easy threading at the touch of a lever.

8/7/6 Thread Stitch Capacity

The Evolve is the only serger with 8 threads, providing more stitch combinations than ever before - 87 in all! The Evolve was also the first serger in the world to combine overlocking and cover stitching in the same operation.

Thread Delivery Unit for the Wave Stitch

For a stitch as unique as the Wave Stitch, Baby Lock wanted to ensure that each one would be even with the next. To do so, they created a thread delivery unit to give each one a flawless look.

Cover Stitch Chaining Off

Baby Lock has made cover stitching easy to start or stop by automatically chaining off the cover stitch. What's more, the Evolve sews through heavier fabrics better than most cover stitch machines.

ECLIPSE DX

Easy-to-Thread Serger

You'll view serging in a whole new light after using the Eclipse DX. This easy-to-use serger includes adjustable manual tensions, allowing for perfect stitches on any type of fabric. Plus, the Eclipse DX includes Jet-Air Threading™, a patented feature that threads your machine with the simple touch of a lever.

Exclusive Jet-Air Threading™

Jet-Air Threading threads your serger with the touch of a button. There are no thread guides or struggling, giving you more time to serge away!

4/3/2 Thread Serging

No matter what type of stitch your project calls for, you can always find the right thread option.

Manual Tensions

The Twin Cam Tension System eliminates tangles and provides proper tension with accuracy – perfect for fabrics that tend to stretch during serging.

Differential Feed

Enjoy consistent feeding on different types of fabrics with a single unit feed dog and differential feed mechanism.

Technology Features

- Instant Jet-Air Threading™
- Micromatic Twin Cam Tension System
- Full-featured differential feed:
 - 2 to 1 Ratio – gathering
 - 3 to 4 Ratio – stretching
 - 4/3/2 Thread serging
- Exclusive Fabric Support System
- Vertical Needle Penetration

Convenience Features

- Built-in needle threader
- Electronic foot control
- Snap on, multi-purpose presser foot
- Built-in accessory storage
- Built-in light
- Built-in ribbon/tape guide
- Carry handle

Advanced Serging Features

- Rolled hemming with 3 or 2 threads
- Flatlock stitching with 2 or 3 threads
- Dial adjustable stitch width: 1.5 - 7.5mm
- Dial adjustable stitch length: 0 - 4mm
- Dial adjustable built-in rolled hem: 0 - 2mm
- Heavy-duty cutting system
- Side thread cutter
- 1,500 Stitches per minute
- Presser foot pressure adjustment
 - Adjust presser foot pressure for any thickness of fabric

Other

- Household needle system: 130/705h
- Electronic drive system
- Instructional DVD included
- Weight: 16 pounds
- Warranty (25 yrs. limited, 10 yrs. parts, 5 yrs. electrical, 1 yr. labor)

Optional Accessories

- Beading (BLE-BF)
- Blindhem (BLE-BLHFS)
- Clear Foot (BLE1AT-CLF)
- Cording 3mm (BLE-CF3)
- Cording 5mm (BLE-CF5)
- Elastic (BLE-EF)
- Flat Sole Foot (BLE-FSF)
- Lace Applicator (BLE-LF)
- Ruffling (BLE-RF)

LAUREN

Beginner-Friendly Serger

Lauren – part of the exciting A-Line Series - makes sure every stitch stays in place with professional quality and incredible speed. This easy-to-thread serger can handle blind hems, decorative stitching, a narrow rolled edge and more.

4/3/2 Thread Serging

No matter what type of stitch your project calls for, you can always find the right thread option.

Technology Features

- Easy color coded threading
- Lay-in tension system
- Differential feed
 - Ratio of 0.7 - 2.0
- 4/3/2 Thread serging
 - 4-thread seaming
 - 3-thread narrow or wide
 - Narrow rolled hem
 - Flatlock
 - Blindhem

Convenience Features

- Free-arm serging
- Electronic foot control
- Snap on, multi-purpose presser foot
- Built-in light
- Carry handle

Advanced Serging Features

- Rolled hemming
- Flatlock stitching
- Dial adjustable stitch length: 1mm to 4mm
- Side thread cutter
- Presser foot pressure adjustment
 - Adjust presser foot pressure for any thickness of fabric

Other

- Blindhem foot included
- Household needle system: ELx705
- Instructional DVD included
- Weight: 15 pounds
- Warranty (25 yrs. limited, 10 yrs. parts, 5 yrs. electrical, 1 yr. labor)

Optional Accessories

- Elastic Foot (BL450-EF)

FOR THE LOVE OF SEWING

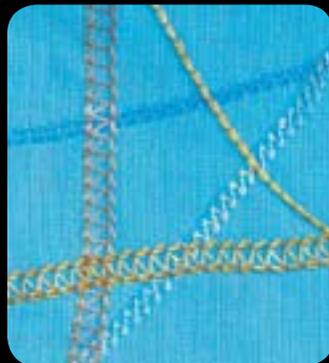

COVER STITCH Machine

The Cover Stitch machine is perfect for both home sewers and tailor shops. Designed especially to complement a Baby Lock four-thread serger, the Cover Stitch machine creates professional finishes for all ready-to-wear and home decorating projects. Effortlessly create triple, wide and narrow cover stitches.

Cover Stitch Width 3mm or 6mm

Choose between different widths to create a narrow or wide cover stitch – great for hems, belt loops and more!

Technology Features

- Instant Jet-Air Threading™
- Color Coded Tension System
- Full-featured differential feed:
 - 2 to 1 Ratio – gathering
 - 3 to 4 Ratio – stretching
- Vertical Needle Penetration
- Auto drop feed when presser foot is raised
- Auto tension release

Convenience Features

- Electronic foot control
- Snap on, multi-purpose presser foot
- Built-in accessory storage
- Built-in light
- Carry handle

Advanced Serging Features

- Narrow, wide or triple needle cover stitch
- Chain stitch using left, center, or right needle position
- Cover stitch width 3mm or 6mm
- Dial Adjustable Stitch Length: 1mm to 4mm
- Chain off for Cover Stitch
- Side thread cutter
- 1,300 Stitches per minute
- Presser Foot Pressure Adjustment
 - Adjust presser foot pressure for any thickness of fabric.

Other

- Household needle system: ELx705
- Weight: 16 pounds
- Warranty (25 yrs. limited, 10 yrs. parts, 5 yrs. electrical, 1 yr. labor)

Optional Accessories

- Belt Loop Folder: 19mm (BLE8-S12), 38mm (BLE8-S11)
- Clear Foot (BLCS-CLF)
- Knit/Woven Double Fold Bias Binder: 8mm (BLCS-DFBB8), 10mm (BLCS-DFBB10), 15mm (BLCS-DFBB150)
- Double Fold Bias Binder: 28mm (BLE8-S3), 36mm (BLE8-S2)
- Elastic Gatherer Bracket (BLE8-GG)
- Elastic Guide for Gatherer Bracket: 7.5mm (BLE8-EG7), 10mm (BLE8-EG10), 13mm (BLE8-EG13)
- Fabric Guide (BLE8-FG)
- Pintuck Foot with 2 Guides (BLE8-PTF)
- Plain Hemmer: 7mm (BLE8-S7), 13mm (BLE8-S6)
- Single Downturn Feller: 7mm (BLE8-S10), 16mm (BLE8-S8), 25mm (BLE8-S9)
