

Embroidering Quilting Borders--RECTANGLE Project

Luminaire (2) /Solaris (2)

January 6 1:00—4:00 following machine training or

January 7 9:30—12:30 before machine training \$25.00

This is an **embroidery** project using the split quilting borders.

You can use the **new magnetic border frame** or your other magnetic hoops or just the regular 10 5/8 x 16 hoop. I strongly recommend a magnetic hoop.

Supplies needed:

- Hoops of your choice
- Quilt sandwich ready to embroidery
- Embroidery or quilting threads to match (contrast with) your fabric and Bobbin thread to match backing
- Tear-away stabilizer (20" x 23"). We will use this for practice and measurement sheet.
- Bring your magnifying glass that fits your machine if you have one.

Finished size about 42" x 42"

Fabric suggestion for Quilt: Create your quilt before class (see box)

- $\frac{1}{2}$ yd for middle "Quilt" design or a fat quarter **Cut 18" x 18"**
- $\frac{1}{2}$ yd for border 1 (blue)
- $\frac{1}{2}$ yd for border 2 (yellow)
- 5/8 yd for border 3 (pink)
- 1 $\frac{1}{2}$ yd for backing (includes extra for hooping)
- 1/3 yd for binding
- 50" x 50" batting

Sew the "quilt" together before class. Make the quilt sandwich before class. Top, batting, backing.

Yardage for blue, yellow, and pink is for 4" borders (Cut 4 $\frac{1}{2}$ " wide) OR you can make borders any size you want just keep between 2"--- 4". It is ok for them to be different sizes.

Pin or baste with your favorite method. We will start with the border technique and measurements, then stitch.
