SEW MUCH NEW!

New Choices in Sewing/Embroidery Machines

We are SEW excited to announce that we have added Brother sewing and embroidery machines to our product line up. You will love how intuitive and easy these machines are to operate and the added bonus—you can embroider Disney & Pixar designs. Mickey Mouse, Lighting Queen, R2D2 to name a few can now be embroidered with ease on your new Brother machine! Looking for more designs? Brother embroidery machine owners have access to ibroidery.com to purchase even more designs (more Disney too!)

Have you been thinking about a digital cutter? The Brother Scan n Cut has endless possibilities to bring your crafting up a notch. Use the built in shapes and rotary cutter blade to cut all the pieces for your quilt blocks. Use the built in scanner to scan applique patterns and cut out all your shapes in a snap for applique or machine embroidery. Do you enjoy collage quilting but find it to putsy to cut the motifs out of fabric? Use the direct cut on the Scan n Cut to scan your fabric and the Scan n Cut will determine the cut lines.

New Choices in Thread

You know the high quality of Wonderfil threads with the Tutti and Eleganza lines. Now you'll have more options in thread with the addition of Wonderfil's Spaghetti, Fruitti, Razzle, and Dazzle collections.

Spaghetti is a 12 weight Egyptian cotton thread that has been double gassed to create a soft and clean cotton thread. To control lint, many other companies will add wax or other residues to glue the lint to the thread. This can cause sticky wax build up in your machine. With all of their cotton threads wonderfill uses a double gassed process to eliminate lint by burning it off the edge of the thread. This leads to far less lint build up in your machine (less to clean!). It comes in 60 saturated solid colors and is ideal for showing off hand quilting or decorative machine stitches. Frutti is Spaghetti's more playful cousin. It's the same 12 weight Egyptian

cotton thread but in 41 variegated colors. Both threads can be used in your sewing machine, serger, and long arm quilt machine. They would also be beautiful for redwork embroidery or trapunto designs—embroidery with large open spaces

Razzle is a 6 ply 100% rayon 8 weight thread. It has a natural bright luster and silky feel making it a wonderful choice for crafts, crocheting, knitting, and serging. Dazzle is Razzle's shiner cousin. It is a mix of rayon and metallic to add a little extra sparkle. Both Razzle and Dazzle will run beautifully through your serger. They are too thick to run through the eye of your needle, but they can be couched or used for bobbin work. They are also gorgeous for handwork.

APPLIQUE BLOCK OF THE MONTH EASTON LOOP WEST

Easton Loop West designed by Kori Turner-Goodhart of Olive Grace Studios was inspired by the row houses of Columbus, Ohio. The quilt is primarily hand applique. If you'd prefer you could use fusible applique instead. The pattern calls for hand embroidery for the detailing, but we used a triple stitch on our machine to speed up the sewing a bit. We also used cork on the trees to add a bit more texture to the quilt.

This quilt is a great way to learn different applique techniques including needle turn hand applique, stitch and flip, and fusible raw edge applique. Each month Jennifer will have a technique video to guide you on the different techniques. The applique on this quilt may seem a bit

overwhelming, but it's all broken down into small manageable sections each month.

The first month you'll receive the entire pattern and fabric for three houses. Each month you'll receive additional fabric and notes on the section to be completed. By the end of six months, your entire quilt top will be done!

54" x 60"

Starts in September

6 month program

The monthly fee is \$30. Over the six months you will receive the pattern, cork, fabric for top and binding, and buttons (door knobs).
