

### Clarification of How to Use Cutting Charts.

When viewing the cutting chart, across the top of the chart the columns are titled:

Fabric      Yardage      # of Strips      Subcuts

In the # of Strips column, an example of what it may say is:

- 4 x 6" x LOF. This means you should cut 4 strips – 6" wide x Length of Fabric.
- 3 x 4½" x WOF. This means you should cut 3 strips – 4½" wide x Width of Fabric.

Directly across from a notation in the Subcuts column, it will tell you how to Subcut that strip, or to hold it for further instruction later in the pattern.

---

### Celestial Magic Version 1 and 2 Corrections noted in RED

#### Page 6 Corrections:

**Step 16 – Strip Set 5:** Repeat to complete 14 squares (queen) or 16 squares (king).

---

**Step 18:** The C-4/C-5 rectangle should be rotated one third of the time.

---

**Step 21 – Strip Set 7:** Cut each strip set into 4 – 4½" x 8½" rectangles.

---

**Step 24:** Repeat for a total of 8 rectangles. D-4/D-5 rectangle should be rotated half of the time.

---

**Step 25:** Lay out block. Pay attention to rotation of squares created in Step 24 ...
