

Twilight Fantasy® – JAD79

The correction for Twilight Fantasy v1 Cutting Instructions is clarified in red below. The width is correct in the Strips column but was incorrect in the sub-cut column.

With regard to the background triangle, technically the math is correct with a 5 5/8" square cut in half diagonally for Triangle H. If you pre-wash the fabric and sew carefully, the square comes out at 10". However, if you do not pre-wash the fabric and there is shrinkage with a hot iron, you may be short. If you have not yet cut your background fabric, cut the square 5 7/8" and trim a second time after sewing the triangle to the block if necessary. If you have already cut your fabric and are a bit short upon completion, trim all squares to a common size after sewing them.

Fabric	Yard(s)	Strips	Fabric Sub-Cuts
Dark Turquoise Lattice Accent	1/2	9 – 1¼" x WOF	• Cut 36 – 1¼" x 10" strips (G2)
Background	5/8	3 – 6" x WOF	• Cut 18 – 6" x 6" squares, cut square in half diagonally once for two half square triangles (H)
