

Twilight Fantasy® – JAD79

The correction for Twilight Fantasy v1 Cutting Instructions is clarified in red below. The width is correct in the Strips column but was incorrect in the sub-cut column.

For both v1 and v2, there was width discrepancy on Templates G1 and N. Because of that, you may be short on the background setting triangle. Keep in mind, the blocks can be trimmed to a common size after sewing if you already cut and sewed the blocks. If you have not cut your fabric yet, cut the background triangles larger, as suggested below, and trim to size after sewing onto the block.

Fabric	Yard(s)	Strips	Fabric Sub-Cuts
Dark Turquoise Lattice Accent	1/2	9 – 1¼" x WOF	• Cut 36 – 1¼" x 10" strips (G2)
Background	5/8	3 – 6 1/4" x WOF	• Cut 18 – 6 1/4" x 6 1/4" squares, cut square in half diagonally once for two half square triangles (H)
