

Bronze Coins

Top finishes at 98"x 98"

To make the quilt pictured:

You need:

- About 5 ½ yards of various browns and earth tones scraps to make 480, 2"x7" strips
- 5 5/8 yards of off white
- About ½ yard of fabric for binding.

Cut:

From various browns:

- 480 2"x7" strips

From off white:

- 32 - 2.5" x 23"
- 16 - 6"x23"

Construct your blocks

The finished block will look like this and should finish at 23" square before you sew them all together.
(This diagram show how big it will be once sewn into the quilt—22.5"x22.5".)

- A. Sew 15 2"x7" strips together in one long group like this, lining up ends and using ¼" seam allowance. Press. Make 2 such strips of strips. (The picture is crooked, but your strips should be nice and straight—it is just the way I took the picture.)

- B. Sew 6"x23" off white piece to the two brown strips of strips so that it looks like this.

- C. Sew 2.5"x23" off white strips to the left side and then the right side of the brown strips. At this point your block is finished and should measure 23"x23".

Now that one block is finished, you need to make 16 total of these rather large blocks.

How to put together the quilt:

1. After constructing blocks, **place the pressed blocks** according to the diagram below.

2. **Sew blocks together** using a $\frac{1}{4}$ " seam allowance, first in rows and then by sewing those rows together.
3. **Press well.**
4. **Sandwich**, using whatever type of batting and backing you prefer
5. **Quilt** as desired. I did a lot of embroidery in the open spaces on this quilt along with straight line quilting and some wavy lines.

6. **Bind**, using whatever method you wish.

It's that easy!!!

Your quilt is finished!

Enjoy!
