Construct blocks:

Block 1 –

I will use this diagram and just show you how to add strips to make this quilt. I pressed between rounds.

Make 32 blocks. They will finish at 12.5" at this point.

Block 2 –

Starting in the center with the yellow square, add the pieces as shown: Press after each addition of a piece.

Make 32 of these blocks. They will finish at 12.5" at this point.

How to put together this quilt:

1. Sew together in rows.

Following this diagram, lay out the blocks, following this layout for the center of the quilt.

Make 8 rows using this layout...all rows are laid out the same – it's that every other row you will turn upside down. You are alternating blocks. Take care with placement and direction of the blocks.

After making 8 rows, sew the rows together, making sure to alternate rows – by turning them upside down.

2. **Press well.**
3. **Sandwich**, using whatever type of batting and backing you prefer.
4. **Quilt** as desired. I used loops.

5. **Bind**, using whatever method you wish.

Congratulations! Your quilt is finished! Enjoy!
