

Quiet

91½" x 99"

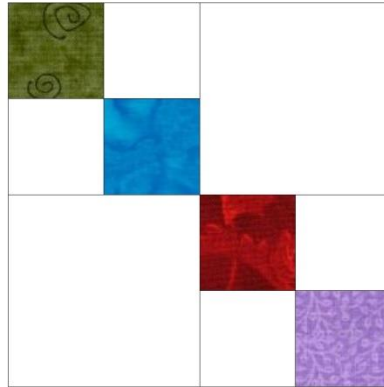

To make the quilt pictured:

You need:

- About 2 yards of bright scraps for the 4 patch blocks
- 5 1/8 yards of white
- About 3/4 yard of fabric for the binding.

Note: This quilt consists of 1 block (plus sashings and cornerstones). It looks like this:

Cut:

For the double 4 patch block: (for one block only)

From colorful fabric:

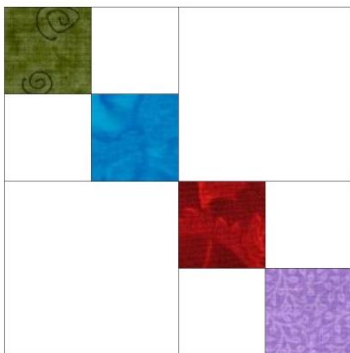

- 4 – 2"x2" squares (or you can strip piece—explained later) (720 for entire quilt)

From white:

- 4 – 2"x2" squares (or you can strip piece—explained later) (628 for entire quilt)
- 2 – 3½"x 3½" squares (312 for entire quilt)

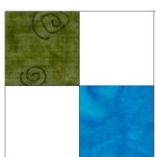

Sashings and Cornerstones will be explained later

How to make the block:

It is made up of two parts – 4 patches and a plain block:

You will need to make two of these:

and 2 of these:  (3½" squares)

If you are using your already cut 2" squares, sew your squares together with a white to a colorful like this:
Press towards the colorful.

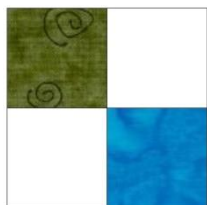

Make a large variety and then mix the colors when you sew them together. Nest the seams.

+

=

Make 156 4 patch segments.

Note:

Since I had 2" strips, I strip pieced. I cut a very long piece of white—it was probably about 80-100" long as these were sheets I found at Salvation Army in the U.S.—and placed brightly colored strips of varying lengths along the edge of the 2" white strip. I sewed together. Press towards the colorful.

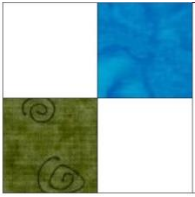

Then cut off 2" segments:

Use those segments to make your 4 patches.

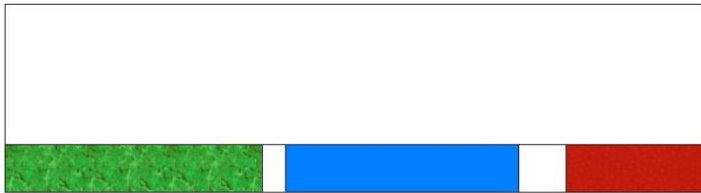

Note: This whole quilt calls for 156 blocks, so you need 312 4 patches. **You will need 628 segments of white/colorful 2" like this**  **in order to make those 312 4 patches.**

From your strip pieced segments, construct 312 4 patches that look like this:

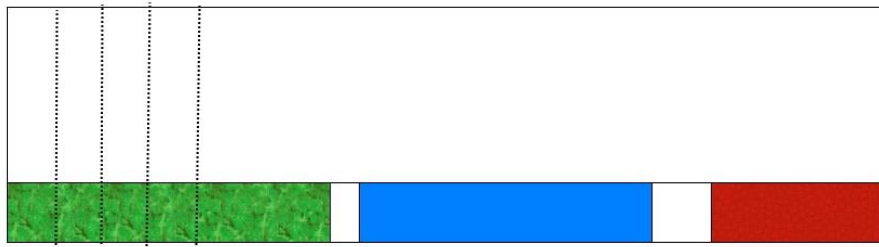

Make your sashing/cornerstone pieces.

1. Cut from your white:
 - 169 – 2" x 6½" strips. These go between the blocks in the rows.
2. Strip piece the rest like this:
 - Cut a piece of white 6½"x WOF.
3. Now add colorful pieces of 2" strips that you have to the long edge of it. Press towards the dark.

Cut off 2" segments:

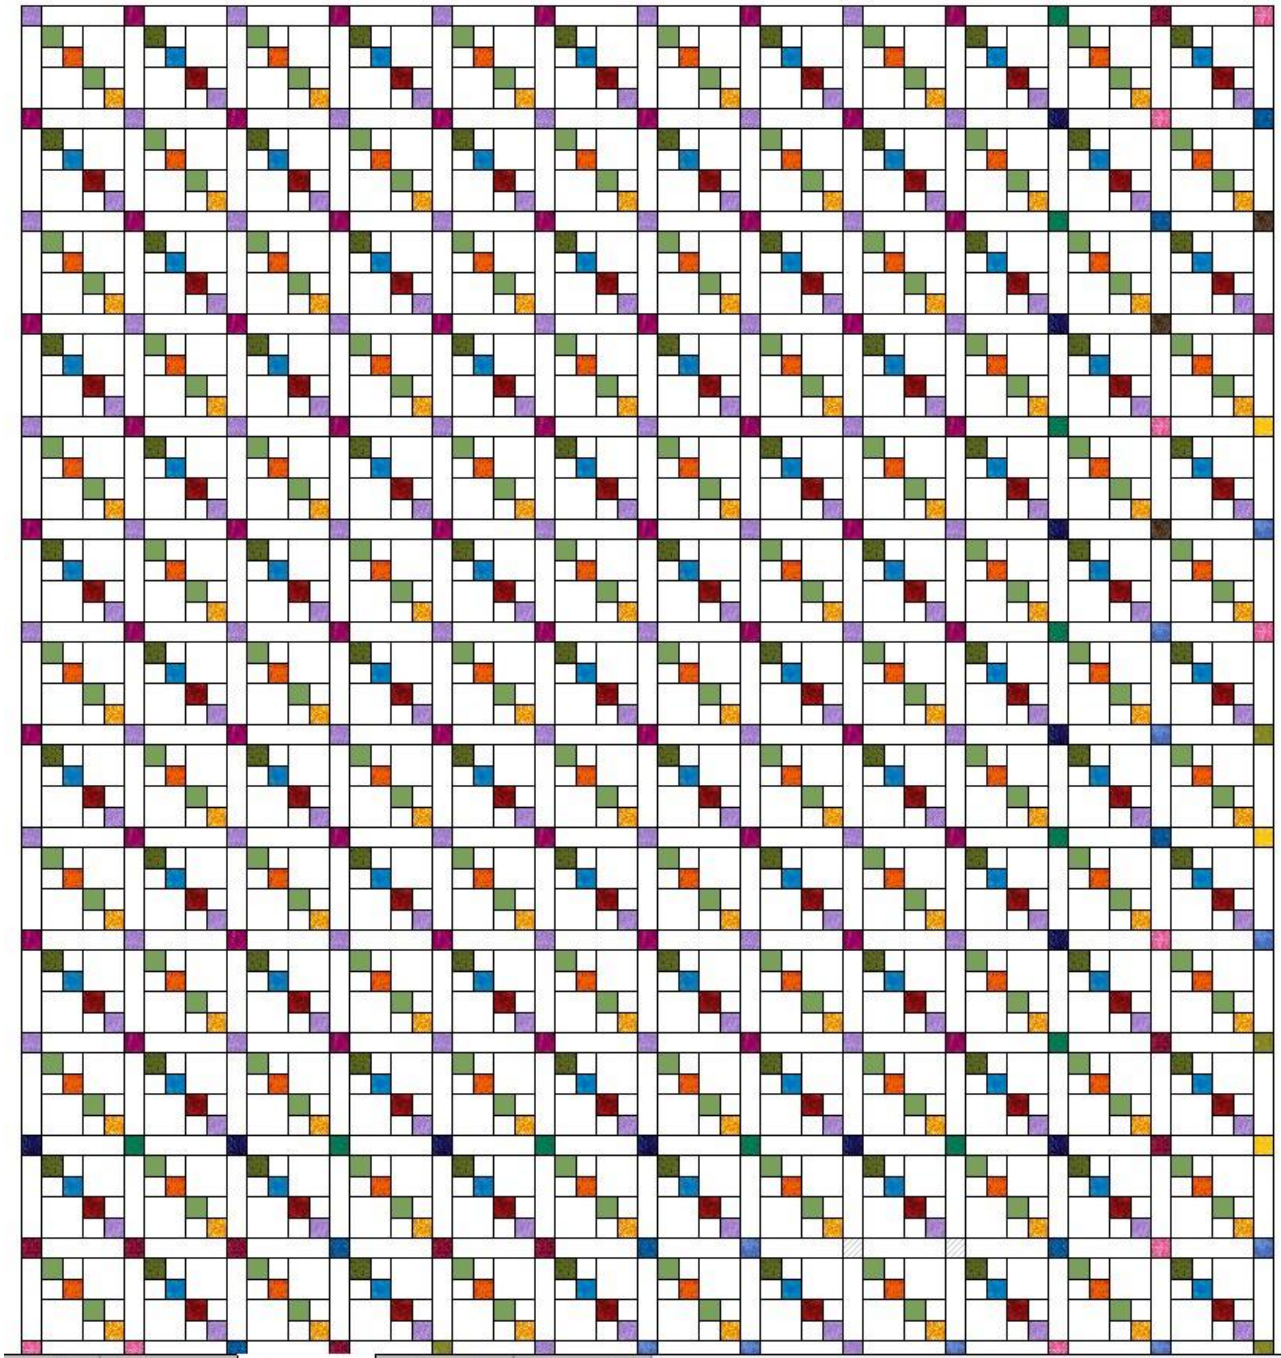

The entire segment will look like this:

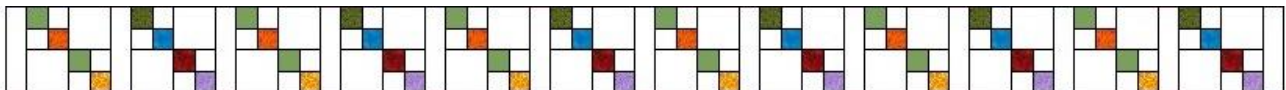

Make 168 such segments. I call these the cornerstone/sashing segment.

How to put together this quilt:

1. Construct your blocks as described above.
2. Using the diagram below, lay out your blocks.

- Sew 12 blocks across with a 2"x 6½" white sashing strip in between each block. Make sure the colorful squares are going the direction you wish for them to go to get the desired effect.

Make 13 rows.

- Make 14 sashing/cornerstone rows which will go between the above rows.

Sew 12 of your previously prepared sashing/cornerstones pieces together to make a long piece. Add one more 2" square to the end that doesn't have a colorful square so that it will be ready to use in the quilt construction.

It will now look like this:

Make 14 rows like this.

- Sew all the main block rows and the sashing/cornerstone strips together as in above diagram.

3. **Press well.**
4. **Sandwich**, using whatever type of batting and backing you prefer
5. **Quilt** as desired. I did straight line quilting with my walking foot in a cross hatch pattern

6. **Bind**, using whatever method you wish. I am planning on binding it in white.

Congratulations!

Your quilt is finished!

Enjoy!
