### Quilt Top Preparation

Quilt tops should lay flat and be square to avoid puckers when quilted.

Excess fabric in borders can result in puckers during quilting.

Edge seams should be secured. Stay-stitching 1/8" from raw edge is recommended.

Press quilt top and remove excess threads if needed.

Pin your name and phone number to your quilt top and backing.

**\*Helpful Hint to prevent quilting puckers:** Measure your quilt across the top, at the center and at the bottom. These three measurements should be the same. If not, make necessary adjustments prior to quilting.

### Quilt Back Preparation

Press backing well to remove all wrinkles and creases.

Selvages should be removed and seams (1/2" seam allowance) pressed open.

Backing should measure 10 inches larger than the quilt top.

Sheets cannot be used as backing.
