

- Paint, Golden or Liquitex Professional Grade Recommended. For those on a strict budget, I recommend the 8 color Liquitex Basics or student grade color set.

(3 oz. acrylic):

Phthalocyanine blue (red hue)

Hooker's green/chromium oxide
violet

cadmium red medium (Golden brand only) or naphthol crimson
yellow ochre/oxide

cadmium yellow lite or hansa yellow

titanium white (large tube)

mars, ebony, or ivory black

Plus any other colors you might wish to have; I recommend a
brown sienna or umber

Small bottle of glazing medium (gloss or semi-gloss)

- Assorted brushes/ recommended: 1/8", 1/4", 1" flat/bright or filbert headed: a tiny round headed brush for detail. Don't buy cheap brushes!!! They will fray and shed after one use. Purchase synthetic sable ones. You may buy a brush set. Since you don't know what you might prefer yet, I would try a variety of stiff to soft bristles. If you already have brushes, you may bring them the first week; and after I go over all the supplies, you may add to your collection as you desire. I will demo all the materials.
- **16 x 20" either canvas board or pre-stretched canvas to start; other surfaces will be discussed for later projects.**
- Sketchbook/unlined paper for sketching out composition/ideas

- Water container
- Palette (Sheet of Plexiglas, disposable palette paper, plastic tray)
- Rags
- Scissors
- Ruler
- 2H or HB Pencil
